

59 KILLED BY MINE BLAST

HUGHES GIVES 9 YEARS TO FINISH SEWAGE PLANTS

Reports on Chicago Water Contest.

BY ARTHUR CRAWFORD.

(Chicago Tribune Press Service.)
Washington, D. C., Dec. 17.—[Special.]—Completion of a 174 million dollar sewage treatment program by the Chicago sanitary district within nine years would be required under the terms of a decree recommended to the Supreme court of the United States by Charles E. Hughes, chief justice.

Sanitary reductions in the diversion of water from Lake Michigan at Chicago from 8,500 cubic feet per second to 4,500, 5,000, then to possibly 1,000, and finally upon the completion of sewage treatment works to 1,500 would be further conditions of a decree under Mr. Hughes' proposal. These figures are exclusive of sewage for domestic purposes, which amounts to about 1,500 feet.

While military district officials had said for a period of fifteen years that the completion of the sewage treatment works and had opposed such a drastic reduction in water diversion, Mr. Hughes suggested more terms than were urged by the complainants in the case.

As Favorable As Expected.
In the light of the adverse decision of the Supreme court of last January, which held that there is no legal basis for diversion of water beyond the comparatively small amount necessary for navigation in the Chicago river, the Hughes report was regarded as being about as favorable to Chicago as could have been expected.

Mr. Hughes made it clear that it is within the power of congress to provide for a greater diversion for navigation purposes. It appeared evident that if congress approves the Illinois state waterway as a federal project, the way will be opened for a sufficient diversion of water to maintain navigation in a nine foot channel from Chicago to the Mississippi.

Whether congressional authorization of the Illinois waterway will give the necessary diversion of water without expense to the state, as the subject is disputed, it is estimated that a diversion of from 5,000 to 6,000 feet will be necessary for the waterway, although opponents of Chicago water diversion insist that navigation may be maintained with a diversion of not more than 2,000 feet.

Representative Beck's Opinion.
Representative James M. Beck (Rep., Pa.), former solicitor general of the United States, who was one of the Chicago sanitary district's counsel, said the master's report seemed especially in line with contentions of the Chicago attorneys.

"I have not yet had time to examine carefully the entire report," said Mr. Beck. "But as far as I have read it seems to me to sustain very largely the contentions that my association and I argued in behalf of the sanitary district."

"While it does not wholly allow the diversion we asked for, yet the master has sustained our contention that the court should reserve jurisdiction in order that it, at any time, feature of the decree may, through unforeseen circumstances, be impossible or inequitable, either party may ask a modification of the decree."

"It is significant that the decree directs authorities congress to make a determination of the amount of the diversion, and as congress has delegated this authority to the secretary of war and the chief of engineers, it would seem that the action recommended so far as the diversion is concerned is still within the power of the war department."

Legislation Required.
Mr. Beck explained that while he thought the secretary of war might have power to change the amount of diversion, allowed from the standpoint of navigation requirements in the Chicago river this would not extend to navigation requirements for the lakes in the Gulf waterway in the absence of legislation.

It is expected that a considerable number of days before the Supreme court renders a decree in the case. The case is now in recess and will resume on Jan. 6. If either side desires to present arguments on the court's recommendation the court will permit this to be done.

Mr. Hughes' report was formally filed by Mr. Hughes this afternoon with the clerk of the court and immediately made public.

The present permit of the secretary of war, issued March 3, 1923, authorizes a diversion of 2,000 feet.

—and so they started on their Mission!

Arnold Guilty; Disagreement in Wife's Case

New York, Dec. 18 [Wednesday].—[Special.]—After deliberating since 1:25 p. m. yesterday, a jury in the Supreme court which has been listening to testimony in the divorce suit between Ray H. Arnold, wealthy investment broker, and his wife, who is bringing a counter suit, reported at 2:15 a. m. today that it had found Mr. Arnold guilty of adultery, but had not been able to agree on the alleged misconduct of Mrs. Arnold.

Following the jury's verdict counsel for Arnold and for Mrs. Margaret Crenshaw West of Crestwood, N. Y., with whom his wife had alleged improper conduct, moved to set aside the verdict and asked for a new trial. Justice McCook directed the attorneys to file briefs by tomorrow and to be ready to argue the matter before him Saturday.

Disagree on One Question.

The jury had been given eighteen questions to answer in which they were called upon to decide as to the wife's relations as well as the husband's. They cleared Mrs. Arnold of all the allegations with the exception of one, on which they were in disagreement.

The court ruled out all the accusations against eighteen year old Mrs. Margaret Crenshaw West, who, with her mother, Mrs. Margaret Crenshaw West, was named a co-respondent by Mrs. Arnold. It was held that the allegations against Miss Crenshaw had not been substantiated.

Questions, in written form, were handed to the jury following brief addresses by Herman J. White, counsel for Arnold, and William J. Rapp, attorney for the wife.

Mrs. Arnold in Tears.

Mrs. Arnold was in tears as her attorney asked the twelve men to study her closely and determine whether she was the type of woman who would commit the indiscretions charged against her.

"This case," said Rapp, "is typical of everything Ray H. Arnold has done. Not content with dragging his wife into the mire to get rid of supporting her, he dragged in the name of his best friend, dead man, Charles Pitts, and then her lawyer, my partner, Charles Hann Jr."

If the jury answers "yes" to one question on both sides, neither party will be divorced, but Mrs. Arnold's large alimony will cease and Arnold will emerge victor. In this event the parties will remain in statu quo, both being adjudged guilty, but barred from divorce by the rule of equity law.

Large Stakes Involved.

In terms of money the stakes at issue in very large. Under decree of court Mrs. Arnold is now receiving \$3,333 a month alimony, which has been paid to her for almost a year. Her attorney has received \$21,500, and if she

THE WEATHER

MACHINE GUNS LINK BURKE TO GANG MASSACRE

Test Bullets Fired from
Police Killer's Weapons.

(Pictures on back page.)

Microscopic examination of bullets taken from the bodies of the victims of the Valentine day massacre, some fired through machine guns, some from Fred H. Burke's pistol, after he killed Policeman Shelly of St. Joseph, Mich., last Saturday—engaged the attention of Herman N. Bundezen last night.

Bundezen was at large, hunted as a professional murderer and bank robber, whose arrest there are reports that may aggregate \$75,000. He was apprehended in their neighborhood five miles south of St. Joseph, was giving evidence which the police believed valuable, but the accused murderer was free, waiting or hiding.

Appeal to Science of Ballistics. Bundezen and his chief deputy, Victor Kable, were not concerned with Burke's capture, or with the fact that Shelly was buried yesterday with full civic honors. Their job was to prove, if possible by the science of ballistics, that Fred Burke was part in the Valentine day massacre.

The coroner had obtained one of the two machines now in existence which were constructed for the purpose of comparing bullets. During the autopsy, went to the roof of the city building where Bundezen fired a less or more bullets from each machine gun found in the home. Studies Markings on Bullets.

By hours afterward Bundezen studied the markings on both sets of bullets. There were many similarities and Stages remarked, but many tests must be made before they can say positively that the guns used from St. Joseph were those used in the massacre of the seven men gangsters last February in a St. Joseph street garage.

Stages had established one connection to attach to the many other men indicating that the Fred Burke of the St. Joseph killing is Fred Burke of that Fred Burke was the police officer leader of the slayers of the seven gangsters. This link was the fact that Burke abandoned after he shot Policeman Shelly. The machine was released in August, 1928, from a Duesenberg now out of business.

It was purchased by a man who gave the name of Van Gels, a fugitive from a St. Joseph, charge four years old, who was taken by the Capone gang to their stronghold. Stages had previous information through pictures that Burke and Gels were together in several cases while both were fugitives.

Linked in Capone Gang.

The new suggested Burke's friendly relationship to the Capone gangsters who were suspected of having hired Burke to exterminate the Moran gang. Another car, used in a Toledo bank robbery, was traced to his purchase in Chicago by Gels, who then used the name of Van Gels. Employees of the Toledo bank identified Burke's picture as that of one of the men engaged in the robbery, during which a policeman was slain.

While the police were plying to

RUM WIDOW SUES BOOTLEGGERS AND COLLECTS \$6,700

Springfield, Mass., Dec. 17.—(AP)—Alleging that her husband sold her rum, a defendant sold her husband illicitly manufactured liquor that eventually caused his death. Mrs. Georgianna Hebert of Holyoke was awarded damages of \$6,700 here today in United States court. The action was for \$25,000 damages against Joseph Guertin, also of Holyoke. The plaintiff alleged that in a period of 18 months her husband consumed liquor bought at Guertin's cigar store. The suit was regarded here as a test case, and it is expected that it will be followed by the bar and public with excited attention.

Doubt Burke Is in Chicago. A report was received by Chief Investigator Roche that Burke was seen yesterday morning having breakfast in the luncheon of a loop hotel. William Hutcheson, who said he knew Burke as Fred Dune of St. Joseph, gave the information. Roche was disinclined to believe it, suggesting that the killer, if in a downtown hotel, would take his meals in his room.

Burke has been identified as the leader of a band that robbed the First National bank of Peru, Ind., and Inspector Henry J. Garvin of the Detroit police said that Burke was responsible for several machine gun killings there. Burke's acquaintance in Chicago, Detroit and various Indiana cities is therefore believed to be a reason for his remaining where he is less likely to be recognized.

Austria Passes Law for Traffic to Drive on Right

(Chicago Tribune Press Service.)

VIENNA, Dec. 17.—(AP)—A law to the right "actually took place in the Austrian parliament today, but not politically. All parties agreed on a law to go into force on Dec. 1, 1932, for new traffic regulations. This regulation provides for driving on the right side of the road instead of on the left side. The cost of changing the traffic regulations will be more than \$2,000,000.

Deafens Burke Was in Massacre.

"O, Fred wasn't in that terrible thing," she said. "I know he wasn't. Why, he couldn't have been to Chicago and got back to Hammond?" She denied ever having seen Burke

SECOND SON OF JOHN D. JR. TO WED IN JUNE

Philadelphia Society Girl
Is Bride to Be.

Philadelphia, Pa., Dec. 17.—[Special.]—The engagement of Mary Todhunter Clark and Nelson Aldrich Rockefeller, second son of John D. Rockefeller Jr., was announced today by Miss Clark's parents, Mr. and Mrs. Percy H. Clark of Willoughby, Cynwid. The marriage will be celebrated in June and the couple will spend the honeymoon in Europe.

The engagement is the result of a romance which had its origin at Northeast Harbor, Me., where both families have cottages.

Miss Clark made her debut at a tea on Oct. 16, 1928, and since that time has been prominent in the activities of the younger social set here and in New York. She is an enthusiastic sportswoman, riding, swimming, and playing tennis and basketball. She is a graduate of Foxcroft school in Virginia and afterward studied for a year at the Sorbonne.

Active as Junior League. For two years she has been identified with the social service work sponsored by the Junior League, and at the Junior League cabaret, the Easter ball, and the Devon horse show cabaret has done specialty dances with Mrs. Robert Holmes Page Jr. With Mrs. Walter Rex Jr. she was co-chairman of the players' committee of the Junior League.

Senior at Dartmouth. Mr. Rockefeller is a senior at Dartmouth college, and in addition to playing on the soccer team, has been awarded a fellowship for the consistently high scholarship standing he maintained for the first three years of his college course.

During his freshman year he achieved considerable fame by sharply criticizing the "open house" system by which fraternities entertained prospective members and the time that was wasted by undergraduates in "rushing" freshmen whom they considered valuable fraternity timber.

LIEUT. S. P. MOSS RE-ELECTED HEAD OF POLICE GROUP

Members of the Police Lieutenants' association re-elected Stewart P. Moss

of the Warren avenue district as their president for the fourth consecutive time and by unanimous vote at their annual meeting in the Hotel Sherman last night. Lieut. Moss is the author of the official police manual and of tracts on the habitual criminal law.

Other officers of the association were also re-elected. They are: Patrick Bonner of the Deering district, vice president; Timothy Rohan of Hudson avenue, treasurer; Peter Tomchek of Shaker, secretary; and Joseph Hughes of Desplains, sergeant at arms.

LIEUT. MOSS.

High prices, dry agents and a boom blockade at Detroit are giving local prohibition officials hopes of an arid Christmas for Chicago, according to Administrator Yellowley and his chief assistants, George H. Hurlburt and F. Edison Smith.

"There is little Canadian liquor coming into this country now," Mr. Hurlburt said, "and what is coming in costs about twice as much as it did a year ago. Canadian whisky, both bourbon and Scotch, is now retailing at \$125 a case. Even domestic alcohol, cooked in Chicago, is selling at \$50 per five gallon can, just double its price a year ago."

The dry law enforcers promised a general tightening up throughout the holiday season, with every prohibition agent in the district ferreting out sources of booze. Many agents have recently been kept inactive by the large number of cases now before the courts, Mr. Hurlburt said.

A DANERSK DEERFIELD TABLE Special at \$15.00

BECAUSE this clever little table may suggest to you the joy of collecting Danersk furniture, it is offered for December only, at the very special price of \$15.00—thereafter it will be priced at not less than \$27.00.

An interesting and very useful combination of an old design with a modern invention! Eggshell dulled ebony Bakelite has been housed in a beautifully moulded maple top to withstand all possible uses and abuses. A choice 17th century turning is tenoned and wedged into the top and base according to the finest Danersk hand construction.

The finish is old English walnut with subtle high lights, and the edges have been softened by hand as though from years of use.

You will find the Danersk Deerfield Table useful in almost any room—a set of four around the bridge table, or here and there in the living room and study. A lovely gift that will be treasured always!

You are most welcome to call and see one of the greatest collections of historic designs in Federal mahogany, walnut and American maple ever assembled by one maker.

Even one piece of furniture of true pedigree of design will make your home a more joyous place in which to live.

Jingles of Brass

Twice the week before Christmas and all through the store. Were gifts by the hundreds of thousands or more? And shoppers, with lists quite as tall as themselves. Found all kinds of treasures on counters and shelves.

This placid Brass bunny is proudly puffed. At being important when candles are snuffed. Don't tell him at what a low price he is sold. For rabbits are sensitive creatures, we're told. (\$1)

This versatile gadget, as smart as it's new. Does all sorts of difficult duties for you. There's no better gift for a woman or man Who has wrestled with corks or a taviar can. (\$4.50)

A Danish dancer could never outdo The pose that this figure is holding for you. "I'll guard cigarettes with my life," is his boast. (It's really the thing that he likes to do most.) (\$1.95)

This sturdy Brass Box with its lining of wood. Apparently makes cigarettes seem as good. As all the ads promise—a praiseworthy task. What more could medicinal gift-seekers ask? (\$3.75)

Our private opinion concerning Bains Nick. Is that the old gentleman turned a neat trick By handsomely housing this bridge score in Brass. Unique is the name for so clever a pass. (\$3.95)

LIGHT FINGERED MR. WARD HAS FAITH IN SANTA

Sentenced to Prison, but
Still Plies His Trade.

William Ward, pickpocket with a 25 year record, who was sentenced on Nov. 12 to serve one to ten years in the penitentiary, held the center of the stage in a west side speakeasy yesterday. With six shopping bags left till Christmas, Mr. Ward was in a merry mood.

"I haven't missed a Christmas season since 1895," said Mr. Ward, flexing his nimble fingers with pride. "It looked pretty blue for me last month when the judge said one to ten years, but now I'm free as a bird till Jan. 15 anyway and the pickin's look rich."

"Business has been mighty good already," declared the 62 year old pickpocket to his envious audience. He displayed a handful of currency and checks.

Record of Ward Case.
This monologue was reported by one of Ward's auditors and a reporter tried to ascertain why the pickpocket should be at liberty despite his recent prison sentence. Records at the Chicago Crime commission showed the following history of the latest Ward case.

On July 6, 1928, John Pastorelli, 2641 De Kalb street, was in a railway station and felt a hand in his pocket clutching his pocketbook. He grabbed Ward and after a tussle handed him over to a policeman. Ward was subsequently arraigned and indicted, Pastorelli appearing as complaining witness.

On July 26 two men visited Pastorelli and offered him \$150 to drop the prosecution of the case. Pastorelli informed the crime commission and two policemen waited at his home the following night and arrested Vito Marullo, Republican precinct captain of the 25th ward, and Oreste Filippi, when they came to repeat the offer.

Fair Accuse Leonardo.
Marullo and Filippi said State Senator James B. Leonard had investigated the bribery attempt. Both men were arraigned on July 29 before Judge Edgar A. Jonas. Filippi was discharged and Marullo obtained a continuance. No action was taken in regard to Leonardo.

Ward was arraigned on Aug. 7, but when a jury was drawn he disappeared from the courtroom. But on Oct. 30 Ward was tried and found guilty by a jury. He was sentenced on Nov. 12 to serve one to ten years.

Judge John J. Sullivan, who fixed the sentence, granted Ward 30 days in which to appeal. Ward was released from jail on Dec. 6 when a \$10,000 stay bond was posted for him and he obtained another stay on Dec. 13, permitting him to remain free until Jan. 15. Under the present law Judge Sullivan could do nothing but grant the stay, it was pointed out.

LIQUOR EVIDENCE BLAST STARTLES CAR THEFT HEARING

Sgt. Richard Powers of the Lawdale station will hereafter park moonshine evidence outside of the courtroom until he has permission of the court to bring it in. The sergeant was seized in Judge Peter Schwab's Criminal court when a bottle of moonshine wrapped in a newspaper exploded, sending a shower of glass and liquid in all directions. The case on trial was one involving an automobile theft, but the sergeant had previously been to a police court to prosecute Anna Burziam, 2058 South Clinton Park avenue, for selling the moonshine which exploded. She was fined \$100 and costs.

Three deaths yesterday raised the 1929 Cook county motor toll to \$81. The victims:

Mary L. Lee, 12 years old, 2329 North La Claire avenue. Died in St. Anna's hospital of injuries received Monday night when she was struck by an automobile driven by Benjamin Katz, 4648 North Central Park avenue, at Crawford avenue and Iowa street. Katz was held.

Kirkwood McAllister, 48 years old, 1311 South Harlem avenue. Forest Park. Died in the Alexian Brothers' hospital of injuries received a week ago when the automobile he was driving crashed into the Chicago and Northwestern railroad structure at Lincoln avenue and Addison street.

Joseph Neumak, 52 years old, 5358 North Moody avenue. Killed when struck by an automobile at Ardmore and Milwaukee avenues. Joseph Painter, 27 years old, 6102 Seminole avenue, was the driver.

Andrew Menzies, 10 years old, 5431 Parker avenue. Died at the Belmont Avenue hospital a few hours after the amputation of a leg, crushed when he fell under a milk truck he attempted to board at Central and Diversey avenues. Albert Steger, 4035 Monticello avenue, was not held.

The body of a man fatally injured when he was struck by an automobile at Grand avenue and Mason street Monday was identified at the Keystone hospital as that of John Kaspey, 40 years old, 2731 North Marmora avenue.

William George, 5616 Throop street, was held to the grand jury on a charge of manslaughter by a coroner's jury investigating the death of Vincent Finecki, 22 years old, 3203 Park street. Finecki was fatally injured Nov. 24 when he was struck by George's automobile.

FLYER TELLS OF 'BLIND' SEA HO CRASH IN DA

Fought Winds; French
man Slightly Injured

(Picture on back page.)

RIO DE JANEIRO, Dec. 17.—Two men, who had flown about 100 miles from Seville, Spain, in 18 hours without a stop, today emerged from the tropical forests of Brazil to meet an anxious world as to their safety.

Maj. Tadeo Larre-Borges, who hoped to reach Montevideo, capital of the native land of Uruguay, was not to reach a village connected by a cable with the outside world, gave assurance that although he and his companion, Lieut. Leon C. August, had been stunned by the wreck of their plane at Mar del Plata, they were not seriously injured.

Lieut. August was killed.

He told how after successfully gaining more than half of their intended route, including the hazardous over-water route, he reached South American soil in darkness and was unable to find the first clearing to bring the lights of the towns that guide them to a haven, the forested island and, weary from strain and with dwindling fuel, he shot the first clearing to bring the ground was soft and the overturned and smashed. The crewed out and released his companion. A short time later he rushed them and guided Larre-Borges to the little town of Santo Antonio, near the northeastern coast of Brazil. As soon as word of the crash was received physicians hurried to the spot.

Challe Cui and Bruch.

Santo Antonio is remote and in the night, and it was some time before the account of the landing was obtained. Lieut. Challe tonight was taken to Natal by airplane and to a hospital, although it was not serious. He lost over one eye and body he was injured. Maj. Larre-Borges remained near San Antonio to rest. The region where the airplane is known as the habitat of the wildcats. Those knowing the area said that the aviators probably lived their lives to the fact that they near some farms instead of in a big in the denser woods, where would surely have been attacked the animals.

Maj. Larre-Borges said that his comrades had struggled a hard battle most of the way to the South Atlantic.

Run Into Head Winds.

"For the first few hours the flight the winds were favorable. Larre-Borges explained. "But passing Cape Verde, on the coast, we ran into head winds favorable that about 4 o'clock afternoon we decided to ask the nearest land and to turn for it."

He said that they found it necessary to change their course from Funchal, where they had planned to land, to make for the nearest point on the northeastern coast of Brazil. He had difficulty in finding their way because they were unable to get position by wireless.

Plane Is Wrecked.

"Firing low to pick up the coast towns and finally we landed as quickly as possible. The whole struck soft ground and the plane turned over, knocking the aviators unconscious."

"I recovered first and found myself pinned under the plane. I crawled out and he soon recovered was not seriously injured. started to find help and got to Santo Antonio, where the authorities no generously. The airplane was utterly wrecked."

He added that he and his companion were exhausted when they landed and that their fuel was running low.

Maj. Larre-Borges and Lieut. August made the third direct flight from Rio de Janeiro to South America. The aviators were the Italian, Ferrarin and Carlo Del Preste, Spaniards, Iglesias and three other flights have been across the South Atlantic from British Flyers Unheard Of.

(Chicago Tribune Press Service)

LONDON, Dec. 18 (Wireless)—The air ministry this morning announced that no news had been received for more than twelve hours of Squadron Leader Arthur G.

HUGHES GIVES 9 YEARS TO FINISH SEWAGE PLANTS

Reports on Chicago Water Controversy.

(Continued from first page.)

ing a temporary diversion of 5,500 cubic feet per second, expires on Dec. 31. The war department, which has a petition of the sanitary district for an extension of the permit pending a final decree by the Supreme court, will have the Hughes report to guide it in framing a temporary permit.

The Supreme court, in handing down its decision last January in the suits brought by Wisconsin, Minnesota, Ohio, New York, and Pennsylvania, against the state of Illinois, the sanitary district, and intervening Mississippi valley states, referred certain special questions to Mr. Hughes. The court sustained the permit of the secretary of war in view of the existing emergency, but held that there was no legal basis for continued diversion for sanitary purposes. It held that it might be "that some flow from the lake is necessary to keep up navigation in the Chicago river, but that amount is negligible as compared with 5,500 cubic feet now being diverted."

The court considered it to be its duty by an appropriate decree to compel the reduction of the diversion to a point where it would rest on a legal basis.

Questions Referred to Hughes. The questions referred to Mr. Hughes as special master for investigation and recommendation to assist the court in framing a decree were the following:

1. The practical measures necessary for disposition of the sewage of the sanitary district.

2. The time within which these sewage disposal works can be put into operation. 3. The reduction in the diversion that will be practicable immediately and from time to time pending completion of the sewage disposal works. 4. The diversion, if any, of water from Lake Michigan which will be necessary for maintaining navigation in the Chicago river as a part of the port of Chicago after these sewage disposal works are in full operation.

Detailed Recommendations.

Detailed recommendations made by Mr. Hughes were as follows:

That the completion of the north side, west side, Calumet, and south-west side sewage treatment works, under the sanitary district's program, which is estimated to cost \$16 million dollars, will afford practical measures for complete treatment of sewage in the Chicago area.

That the sewage plants should attain not less than an annual average of 85 per cent purification of the sewage treated.

That the remainder of the storm flow, in excess of the volume treated in the sewage treatment plants, will pass into the Chicago river and its branches and into the canals of the sanitary district.

That the north side sewage treatment works should be completed by July 1, 1930; that the Calumet sewage treatment works should be completed by Dec. 31, 1931; that the south-west side sewage treatment works should be completed by Dec. 31, 1932.

Intercepting Sewers. That the necessary intercepting sewers pertaining to these sewage treatment works should be completed within the time allowed for the completion of the plants. That in these estimated periods allowance is made for ordinary contingencies but not for strikes or other occurrences beyond the control of the sanitary district or contractors.

That the diversion of water from Lake Michigan should be reduced on July 1, 1930, to an annual average of 4,500 cubic feet per second in addition to domestic pumpage.

That, subject to the approval of the war department, controlling works should be constructed for preventing reversals of the Chicago river at times of storm and introduction of storm flow into Lake Michigan.

That for this purpose the sanitary district should immediately submit plans for such works to the chief of engineers of the war department, and that such controlling works should be constructed within two years after re-

Chicago Wins Health Plea in Lake Finding

BY ARTHUR EVANS.

Chicago's drinking water supply is preserved from sewage pollution. Diversion from Lake Michigan for navigation of the Illinois waterway to connect the great lakes with the Gulf of Mexico is apparently left up to the war department and congress. Furthermore, the sanitary district will be crimped to complete its quarter of a billion dollar sewage disposal system in nine years instead of the 12 to 15 years asked by the district.

Such were the interpretations which sanitary district officials placed last night upon the finding of Charles Evans Hughes as special master for the United States Supreme court in the lake diversion case.

The master's report was construed as a compromise on several points, but as a triumph for the Chicago sanitary district in its fundamental contention that it should not be forced to discharge storm water and effluent from the sewage disposal plants into Lake Michigan. The six lake states—New York, Wisconsin, Minnesota, Michigan, Ohio, and Pennsylvania—eighteen in all, had petitioned the Supreme court to compel the sanitary district to stop dropping to be taken from Lake Michigan.

Officials Analyze Reports.

Reports of the master's recommendations, which fill 143 pages, as received by long distance telephone by the sanitary district were rather fragmentary. A full copy is in the air mail. But on the information they had at hand last night the officials analyzed the high lights thus:

1. Master Hughes upholds the view that Chicago's drinking water should not be contaminated, after the disposal system is finished, by pouring into the lake the effluent. This upholds the original purpose of the creation of the sanitary district, which was to purify the supply of drinking water by keeping out the sewage. This is the great health issue.

2. After the disposal system is complete the effluent may be turned into the sanitary canal and down the valley.

Nine Years to Finish Works.

1. The district is given nine years in which to complete the sewage disposal works. This is a compromise. The district asked twelve to fifteen years, the six lake states asked six years. Already some \$15,000,000 has been spent on disposal works. It is estimated that the cost of the sewage disposal system will be \$16,000,000.

2. The district is given nine years in which to complete the sewage disposal works. This is a compromise. The district asked twelve to fifteen years, the six lake states asked six years. Already some \$15,000,000 has been spent on disposal works. It is estimated that the cost of the sewage disposal system will be \$16,000,000.

3. The district is given nine years in which to complete the sewage disposal works. This is a compromise. The district asked twelve to fifteen years, the six lake states asked six years. Already some \$15,000,000 has been spent on disposal works. It is estimated that the cost of the sewage disposal system will be \$16,000,000.

4. The district is given nine years in which to complete the sewage disposal works. This is a compromise. The district asked twelve to fifteen years, the six lake states asked six years. Already some \$15,000,000 has been spent on disposal works. It is estimated that the cost of the sewage disposal system will be \$16,000,000.

5. The district is given nine years in which to complete the sewage disposal works. This is a compromise. The district asked twelve to fifteen years, the six lake states asked six years. Already some \$15,000,000 has been spent on disposal works. It is estimated that the cost of the sewage disposal system will be \$16,000,000.

6. The district is given nine years in which to complete the sewage disposal works. This is a compromise. The district asked twelve to fifteen years, the six lake states asked six years. Already some \$15,000,000 has been spent on disposal works. It is estimated that the cost of the sewage disposal system will be \$16,000,000.

7. The district is given nine years in which to complete the sewage disposal works. This is a compromise. The district asked twelve to fifteen years, the six lake states asked six years. Already some \$15,000,000 has been spent on disposal works. It is estimated that the cost of the sewage disposal system will be \$16,000,000.

Already some \$15,000,000 has been spent on disposal works. It is estimated that the cost of the sewage disposal system will be \$16,000,000.

20. The district is given nine years in which to complete the sewage disposal works. This is a compromise. The district asked twelve to fifteen years, the six lake states asked six years. Already some \$15,000,000 has been spent on disposal works. It is estimated that the cost of the sewage disposal system will be \$16,000,000.

estimated about \$175,000,000 more will be expended. On channels about \$25,000,000 has been spent, and the finding is interpreted as meaning this part of the plant will not go to waste, as it forms part of the inland waterway system.

4. The diversion is to be cut from 5,500 cubic feet to 4,500 cubic feet on July 1. This is a larger cut than expected.

5. The waterway end of the diversion controversy seems to be left open. Mr. Hughes recommends 2,000 second feet after nine years, according to the incomplete digest. The telephone abstracts in the hands of the sanitary officials indicated to them that Master Hughes considered the navigability of the Illinois and Des Plaines rivers was not up to him, which would put it up to congress.

Estimate by Edwin. Maj. Gen. Edgar Edwin, former chief of engineers, United States army, in his testimony before the master, estimated a minimum diversion of 5,000 cubic-second feet at Lockport to keep the water in the waterway acceptable to navigation.

When the Supreme court sets a day, probably next month, the sanitary district will file its objections to the Hughes report.

The district will need to stretch itself financially to complete the disposal system in nine years, Edward J. Kelly, chief engineer of the district, pointed out last night in his analysis. Mr. Kelly said:

"As I understand it, the master has recommended a reduction in flow on July 1, 1930, to 5,500 cubic feet per second, which is a reduction of 2,000 cubic feet per second from our present diversion. This amount of reduction alone would dilute the sewage of an ordinary large city and is a much larger cut than was anticipated when the district was created, particularly with the lake at such a high level."

"The master further finds that the sanitary district should construct at the mouth of the Chicago river a dam and controlling works and after the construction of the controlling works the flow should then be cut to 5,000 cubic feet per second. This is really one-half the flow originally intended (10,000 cubic foot seconds) and which the sanitary canal was designed to carry, so that in dollars and cents the cost for our purposes has decreased 50 per cent in value."

"The recommendation would make the master's report a health issue. From a health standpoint it would seem from reports which have reached me that Chicago has at least won an important point—that is the right to keep its sewage out of its drinking water and the storm water out of the lake. This will preserve the present conditions on the lake front and permit the continued use for recreational purposes of our parks, harbors, bathing beaches and other facilities. Our opponents have been contending that all the flow at Lockport should be shut off and the entire effluent or storm water discharged into the lake."

That in July the mean level of Lake Michigan was approximately three feet and nine inches higher than in 1925.

Mr. Hughes stated in his report, however, that this change in lake levels which he reports for the information of the court cannot be taken to modify the decision of the court under which he is acting with respect to the legal rights of the plaintiffs or as to the nature of the ultimate relief to be awarded.

Lake Levels Not in Decision. Representative Beck said that as he construed this portion of the report, Mr. Hughes submitted the lake level

for preventing the reversal of the Chicago river in times of storm. The sanitary district included in its program the construction of controlling works, either in the Chicago river or at or near the head of the drainage canal. The complainant states that they did not regard such works as essential and that their construction should be left to the discretion of the sanitary district.

The complainants sought the reduction in the diversion to 5,000 cubic feet on Dec. 31, 1932, and to 3,000 cubic feet on Dec. 31, 1933, and complete cessation of diversion upon completion of the sewage treatment program.

Mr. Hughes held the construction of controlling works in the Chicago river to be necessary and that in lieu of the specific data for a reduction in diversion below 5,500 feet it should be cut to 5,000 feet at such time as the construction of controlling works is completed.

Danger of Storms Threat. Mr. Hughes said that there was not sufficient evidence to warrant a further reduction to 3,000 feet at the particular time stated by the complainants, but recommended a provision in the decree for examination of results from time to time as the work of sewage treatment progresses with a view to a cut to 3,000 feet or such other amount as the court might hold to be desirable.

One point on which Mr. Hughes decided squarely against the complainants was with respect to their demand that upon completion of the sewage treatment works all flow at Lockport should be enjoined, requiring not only the entire cessation of the direct diversion by the sanitary district but also the termination of the discharge at Lockport of the pumpage. The complainants wanted the water pumped from the lake for domestic purposes and entering the Chicago river and the drainage canal as sewage turned back into the lake.

One Point Wholly for Chicago. Mr. Hughes said that he did not regard it as open to serious question that the city of Chicago, under authority of the state, has the riparian right to take water from Lake Michigan for the ordinary uses of its inhabitants and that there is no law which requires it to turn back into the lake what is no longer water but is sewage or the effluent of sewage treatment plants.

Referring to the matter of the lakes to the gulf waterway, Mr. Hughes said that allowance of diversion of water from Lake Michigan in the interest of the waterway is not deemed to be open to consideration at this time, as the court has found that congress had not directly authorized such diversion. Therefore, he said, in considering navigation needs, he had taken into account only conditions in

the Chicago river as a part of the port of Chicago.

Mr. Hughes said that if the effluent from the sewage treatment plants and the storm water is to be discharged through the drainage canal at Lockport, as he held to be proper, some flow from the lake will be required. The interests of navigation in the Chicago river, he said, would require that there be a diversion of water at an annual average of not less than 1,000 feet, and that it would be safer to allow a mean annual diversion of 1,500 feet in addition to domestic pumpage.

"No Substantial Injury." As stated in his previous report as master, prior to the rendering of the Supreme court's decision, Mr. Hughes pointed out that the present diversion of water has lowered the levels of Lake Michigan and Lake Huron by approximately six inches and the levels of Lake Erie and Lake Ontario by approximately five inches. The effect of a reduction in the diversion to 1,500 feet, he said, would be to cut the amount by which the levels of Lake Michigan and Lake Huron would be lowered to about one inch. Mr. Hughes said, "that a diversion not exceeding an annual average of 1,500 cubic feet per second would produce such a substantial injury to the complainants, when the fluctuations of lake levels due to other causes are considered, as to preclude attention to the serious consequences which may result from a failure to maintain suitable conditions in the interest of navigation in case all flow at Lockport should be enjoined."

In his opinion, such an extreme requirement, after the sanitary district has provided for sewage treatment so far as practicable, should be more exact knowledge as to its effect."

Ohio Official Seeks Conference. Columbus, O., Dec. 17.—[Special.]—The diversion of water from the great lakes to the Chicago sanitary district will be discussed in a conference between Secretary of War Patrick J. Hurley and Attorney General Gilbert S. Bennett of Ohio, in Washington, Thursday. Bettman requested the conference in a telegram to Hurley today on receipt of a telegram from the newly appointed secretary of war which said he "has under consideration the issuance of a temporary permit sanctioning, for the time being, a sufficient diversion to avoid interference with navigation in the port of Chicago, until the decree of the Supreme court is rendered."

Bettman has taken steps to confer with attorneys general of other states, but indicated that he would not offer any opposition at the present time, to Hurley's temporary permit, provided that the permit does not interfere with the carrying out of court decrees already made.

Seek Completion in 3 Years. Completion of the initial unit of the harbor within three years after war is started will be a condition imposed upon the railroad if the second amendment is approved. Both amendments will be acted upon by the committee at its next session and then submitted to the railroad officials for approval before being recommended to the court.

The committee's action was taken after it had received a telegram from W. A. Colston, vice president and general counsel of the Nickel Plate railroad, which the corporation counsel's office has held the Nickel Plate ordinance invalid.

Railroad Official Replies. "There is no foundation for statement that our company is anxious to ready to abandon Calumet harbor project," Colston's reply said. "We think we have a valid and substantial contract with the city for construction of initial unit of Calumet harbor and are ready and willing to go ahead whenever the city is ready to perform its obligations."

The city's obligation is to give the railroad land for a right of way around the harbor. The city has a maintenance has objected to the ordinance partly on this ground, but opposition, according to indication, has vanished. The proposal of George H. Shank, said to have administration backing, to build the harbor was detailed at yesterday's session. Shank had been invited by the committee to explain his plan, but he did not appear.

This is the smartest cigarette-package top we have seen striped as it is, in two colours... and with a metal plaque for a monogram... It makes a cigarette case out of any package of cigarettes... and keeps the tobacco from spilling and the cigarettes from being crushed... Unlike any of the others, this one opens with a slight pressure of the thumb, instead of two fingers... and has a strong, flat construction on the sides.

While counsel for the sanitary district contended that, from twelve to fifteen years would be required for the completion of the sewage treat-

ment program, the complainant states that five or six years would be sufficient. Mr. Hughes compromised by requiring it to be completed within nine years.

In the hearings before Mr. Hughes during the last fall the sanitary district pointed to the recent rise in the levels of Lake Michigan and other great lakes and urged that the necessary diversion of water should be reduced to the point where the diversion no longer existed.

Mr. Hughes reported this evidence to the court, showing that in 1925 the mean level of Lake Michigan was approximately 31 inches higher than for the year 1924, and that in 1923 there was a further decided rise, so

that in July the mean level of Lake Michigan was approximately three feet and nine inches higher than in 1925.

Mr. Hughes stated in his report, however, that this change in lake levels which he reports for the information of the court cannot be taken to modify the decision of the court under which he is acting with respect to the legal rights of the plaintiffs or as to the nature of the ultimate relief to be awarded.

Lake Levels Not in Decision. Representative Beck said that as he construed this portion of the report, Mr. Hughes submitted the lake level

UMET HARBOR PROJECT REVIVED COUNCILMEN

contract ordinance between the state railroad and the city, providing for the construction of an harbor in Lake Calumet, was yesterday by the councilmen on harbor, wharves, and docks.

Two amendments to the ordinance are intended to give to the harbor work were submitted by the committee. The first amendment, proposed by William A. Rowan (19th), was for the construction by the city of a subway under its tracks instead of a viaduct, declared that the opposition to the ordinance was in that section would be due to the fact that the railroad built the harbor on its own expense.

Completion in 3 Years.

The action of the initial unit of the harbor within three years after work will be a condition imposed on the railroad if the second amendment is approved. Both amendments were acted upon by the committee last session and then submitted to the railroad officials for approval before being recommended to the council.

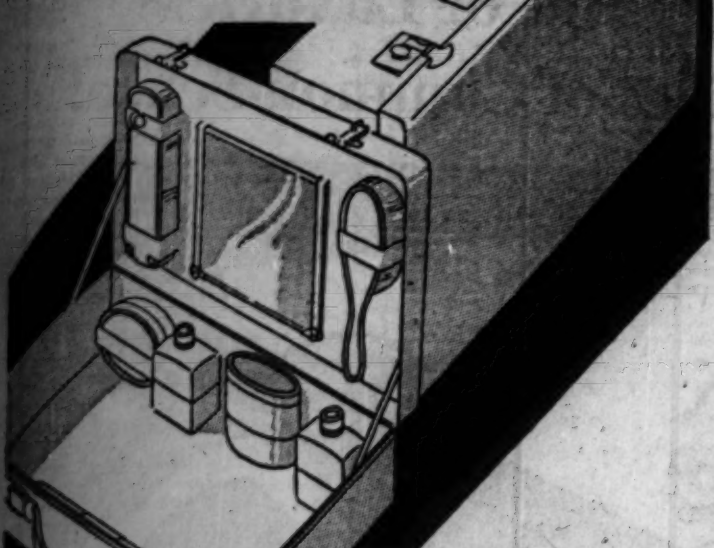

The committee's action was taken had received a telegram from Calumet, vice president and chairman of the Harbor Commission, who had been informed by Ald. Rowan (19th), chairman of the committee, that the corporation commission has held the Nickel Plate as invalid.

Without Official Reply.

There is no foundation for state that our company is anxious to abandon Calumet harbor," Colston's reply said. "We have a valid and substantial interest in the harbor and are ready to go ahead with the city for construction of the harbor and willing to go ahead with the city in ready to perform its obligation to give the harbor a land for a right of way to the harbor. The city had no objection to the ordinance on this ground, but this time, according to indications, Colston, the proposed of George Rowan, said to have administration, to build the harbor was not at yesterday's session. Shank was invited by the committee to his plan, but he did not appear.

These items are representative of the hundreds of gift things here for either men or women—all selected with care and priced to meet the requirements of any purse.

Two Priceless Gifts

YOU MAY BE SURE that a smart imported Fitted Case will please her—this one is an especially wonderful case of a remarkably low price. In most any color you'll want with attractive fittings of enamel. Specially priced **\$37.50**

AND FOR A MAN—this splendid Suit Case in brown, russet and black on-line cowhide. The lid overlaps smartly—the locks are English—it is cloth lined with a shirt fold in the lid. You won't find a better case anywhere for **\$27.50**

**Hartmann
Trunk Company**

178 N. MICHIGAN between RANDOLPH and LAKE

\$250,000 REED LIBRARY GIVEN TO LAKE FOREST

Memorial Announced as Surprise to Council.

The gift of a \$250,000 library building as a memorial to the late Kersy Coates Reed, secretary and member of the board of directors of Marshall Field & Co., was accepted by Mayor Albert B. Dick Jr. and the Lake Forest city council at a special meeting last night. The gift was offered in behalf of Mrs. Reed and her sister, Mrs. Charles H. Schweppé, by Albert E. Hamill, president of the city library board.

The library is to be built in Triangle park in the center of the city. It is to be a brick and stone structure of Georgian style.

Active in Civic Affairs.

Mr. Reed died of heart disease in Beacon, N. Y., last Aug. 29. He was 49 years old. He was also a director of the Davis store and of the Northern Trust company. For many years he had lived at 1115 North Lake road, Lake Forest, and had taken an active interest in the affairs of that city.

He was survived by his widow, Mrs. Helen Shedd Reed, and two children, Mary Shedd and John Shedd Reed. Mrs. Reed and Mrs. Schweppé, also a resident of Lake Forest, are daughters of the late John G. Shedd, chairman of the board of Marshall Field & Co. Mr. Shedd divided an estate of approximately \$15,000,000 between his daughters. Mr. Reed left \$900,000 to his widow and children.

Mayor Dick called a special meeting of the council when he was informed of the offer by Mr. Hamill. The mystery of the announcement attracted a large number of citizens, who applauded the news.

Need Is Cited.

"It is particularly appropriate that the building should be donated as a memorial to Mr. Reed, both for the esteem in which he was held by his fellow townspeople and because of his great love for books," Mr. Hamill said in making the offer. "The city of Lake Forest is fortunate in that the gift comes at an opportune time. This city makes a greater demand on its library in proportion to its size than any other municipality in the country. The present quarters are far outgrown. The new building will be both a civic improvement and the fulfillment of a necessity."

The offer was accepted unanimously by the city council. In expressing the thanks of the city Mayor Dick praised Horace H. Martin, donor of many books, and the memory of Mr. Reed.

Women in Court Fight for Fortune

MRS. ELLA M. KING.

Mrs. Alice Pulsifer Crockett.

\$200,000 at Stake

Dr. John Kercher, personal physician of the late Charles H. Pulsifer, 81 year old former Board of Trade operator, was the principal witness yesterday before Superior Judge Gentzel in behalf of Mrs. Alice Crockett, 190 East Pearson street, Pulsifer's granddaughter. She is seeking the recovery of gifts valued at between \$200,000 and \$400,000 made by Pulsifer to his housekeeper, Mrs. Ella M. King, 61 years old, 4800 Grand boulevard.

Dr. Kercher testified that Pulsifer was left helpless after suffering a stroke in 1925 and that the patient was mentally unbalanced at the time he made the gifts. Under cross-examination by Attorneys David Levinson and Henry S. Moser, representing Mrs. King, the doctor admitted that he had been convicted in 1924 of violating the Harrison narcotic act.

Naples Sees New Miracle as Blood of Patron Saint Boils

BY DAVID DARRAH.

(Chicago Tribune Press Service.)

ROME, Dec. 17.—For the populace of Naples, the age of miracles has not passed. On his commemoration day yesterday, the blood of St. Januarius, patron saint of Naples, who suffered martyrdom under Emperor Diocletian, boiled vigorously in a small phial, in which it has been preserved through centuries in the chapel treasury of Naples' cathedral.

This miracle, which, according to tradition, has been witnessed for 400 years, takes place usually, according to popular belief, on Sept. 19 and during the first ten days of May. But never in the memory of the Neapolitan devout has it ever occurred in December. Accordingly, it is believed by Neapolitans to be a divine expression of the martyr saint's approval of the marriage of Crown Prince Humbert and Princess Maria José, and also of the conclusion of the Lateran treaty between the pope and Italy.

St. Januarius' name has been celebrated in connection with this miracle of liquefaction for centuries. In times past, St. Januarius' relics have been

evoked to stop eruptions of Mount Vesuvius. Yesterday's manifestation were received with exceptional joy. In the morning a silver boat, believed to contain the head of the martyred saint, was exposed in the cathedral before enormous crowds of worshippers.

Then a reliquary containing two smaller phials was brought out. One of these phials contains the blood of the saint, according to belief. When it was first exposed at 11 o'clock in the morning, the phial contained a dark and solid mass, and there was a ritual procession. Prayers were uttered, begging for the miracle.

Later in the afternoon the reliquary, containing the phial, was carried to the sacristy and placed opposite the altar. At exactly 2:10 p. m., while Magr. Ausilio Rucione was officiating, those present noticed that the blood was bubbling and boiling.

It was announced that miracles do happen and a "Te Deum" was offered. The sacred phial was then brought to the altar, where thousands passed in veneration to kiss the containing vessel.

CHRISTMAS GIFT SELECTIONS IMPORTED BY FINCHLEY

NUMEROUS ARTICLES OF A PRACTICAL NATURE AND EXCELLENT QUALITY, SELECTED WITH AN ACTIVE KNOWLEDGE OF GENTLEMEN'S NEEDS AND DEFTLY ENCASED IN RICH LEATHER. IT IS SUGGESTED THAT A GIFT OF THIS CHARACTER WILL PROVE HIGHLY ACCEPTABLE AND SERVE THE RECIPIENT CONVENIENTLY THROUGH MANY YEARS.

HARDING SEES COUNTY BROKE IN TWO MONTHS

Urges \$7,750,000 Loan
to Meet Obligations.

BY OSCAR HEWITT.

County Treasurer Harding told the county commissioners yesterday that the county would be out of cash within sixty days if they paid off their current obligations.

This is in striking contrast with the view of J. L. Jacobs, efficiency expert of the county board, who was quoted in an interview last Saturday as saying that the county does not need outside financial assistance.

The Harding statement was signed. As required by law the treasurer was advising the commissioners on the amount of cash needed to operate the county machinery. He suggested that the county borrow \$7,750,000. The \$7,750,000 is to supply cash for the pay rolls for December, and Mr. Harding said that he would undertake to get the employees money before Christmas. The remaining \$7,000,000 is needed to operate the county government after a fashion—for the first four months of 1930.

Loan Limit \$8,000,000.

Mr. Harding frankly told the commissioners that their limit in borrowing next year in anticipation of tax collections is \$8,000,000.

"It is not the duty of the county

MARINE DIVES INTO SHARK INFESTED BAY, RESCUES A HAITIAN

Washington, D. C., Dec. 17.—(AP)—The story of how a Haitian was rescued from the bottom of a shark-infested bay, dragged out to shore, and brought back to life by a 39-year-old marine private and a pharmacist's mate of the navy came to the state department today in a dispatch from the American high commissioner in Haiti.

Milton Friedman, the marine, enlisted in Memphis two years ago. The pharmacist's mate was Floyd Lewis Stafford of Rolla, Mo., who has served in the navy since 1920.

While disorder was rampant in the Negro district, André Denis, a native, became involved in a fight with another Haitian and was pushed into the water.

From the deck of a marine boat near by Friedman saw him go down. He dived in immediately and found the Haitian on the bottom of the inlet and dragged him ashore.

Pharmacist's Mate Stafford "luckily" was there, the report related, and after working over Denis (the Haitian) for half an hour, brought him back to life.

The waters of the bay at Cape Haitien, marine officers said, are so thickly infested with sharks that a swimming pool has been provided for the soldiers quartered there.

Treasurer, he wrote the commissioners, "to suggest what you should do with the \$8,000,000, which is the sum total you can realize from the sale of tax notes or tax anticipation warrants."

The county's floating debt other than that represented by tax anticipation warrants is estimated at \$1,650,000.

"As the liabilities outstanding amount to more than \$1,600,000," Treasurer Harding's letter reads, "should the board decide to pay them, there would be left approximately \$1,600,000 with which to aid in paying the running expenses of the county for the entire coming year. Should the board adopt this policy (paying its current debts), the county would come to function before 90 days had elapsed."

"Should you continue in the same policy that you have followed in the last year, then I suggest that the inclosed statement of finances will show that it is necessary to borrow \$7,000,000 in order to carry out that policy and go as far as the money will permit."

The policy of the last year has been to pay salaries and let other obligations accumulate. In indicating the need for \$7,000,000 under this policy the treasurer listed the following liabilities and expenses for the first four months of the year: Salaries of county employees, advanced by the banks during the last two months, totaling \$1,996,449.15; and interest on that money of \$9,471.55; payment for food and clothing for relief of the poor, \$84,000; the placing of children in homes, \$35,873.21; payment for nursing at the county hospital, \$1,019,657.31; and workmen's compensation of \$6,447.37. The liabilities thus listed total \$5,514,904.59.

Salaries of employees for four months are placed by Mr. Harding at \$3,248,000 and pay for judges and clerks at the primary at \$558,000, making an aggregate of \$7,019,904.59.

\$779,000 a Month.
Mr. Harding would take care of other monthly bills, such as the state's attorney's fund, industrial school claims, placing of children in homes, relief for the blind, mothers' pensions and fees of jurors. Those are estimated at \$779,000 a month. To

pay them, the treasurer suggests that the fees from the recorder, clerks of the Circuit, Superior, County, and Probate courts, state's attorney, sheriff, and other offices may be reasonably estimated at \$779,000 a month. Except for the monthly services referred to previously, totaling \$779,000, Harding believes the county will have less than \$1,000,000 in borrowing power after the \$7,750,000 has been spent. He estimates this amount will be eaten up about June 1. The county's appropriations for the year total \$11,155,568.

Mr. Jacobs apparently has some plan by which the county can pay off its floating indebtedness. The details of it have not yet been made public.

PAYING 1930 LEVY.

The county board at its meeting passed its 1930 tax levy ordinance of \$21,464,330. Of this amount \$12,000,000 is for corporate purposes, \$6,000,000 for highways, and the remainder consists of annuities, bonds, and interest.

Slas H. Strawn of the Citizens' committee appointed to rescue the tax-expending bodies from their difficulties has asked both Treasurer Harding and President Cermak of the county board for suggestions and requests for specific aid. Undoubtedly Mr. Harding will submit his views, although he says that it is not part of his duty to do the county's financing. Mr. Cermak, because he has taken part in two Strawn committee conferences, may be expected to agree to Mr. Jacobs' views. The citizens' committee then will have to decide to what extent the differing ideas of Jacobs and Harding are correct.

President Caldwell of the board of education said yesterday that he would submit a request and suggestions to the Strawn committee, as asked. The rescue committee is scheduled to meet again today. It is understood that the city council will be asked to decide today whether it will make any official representations to the Strawn committee.

ALDERMEN'S ELECTION BO AND COURT FU

Budget Reductions
Total \$1,000,000

The council finance committee night reduced the proposed appropriations for four departments under their 1929 allowance. By their action the aldermen's total of cuts for next slightly over \$1,000,000, or of the \$10,000,000 retrenchment. The aldermen proceeded at their reduction of the appropriation of the board of election commissioners and the chief justice, clerk of the Municipal court in the a half hour session. Quibbled parliamentary rules of the board of creation on the virtue reforms and the power Municipal judges to demand appropriation desired caused and provoked hot argument laughter.

Reduction Totals \$700,000

ALDERMEN SLASH ELECTION BOARD AND COURT FUNDS

Budget Reductions Now
Total \$1,000,000.

The council finance committee last night reduced the proposed 1930 appropriations for four departments \$788,000 under their 1929 allowances. By their action the aldermen raised the total of cuts for next year to slightly over \$1,000,000, or one-tenth of the \$10,000,000 retrenchment goal. The aldermen proceeded slowly with their reduction of the appropriations of the board of election commissioners and the chief justice, clerk and bailiff of the Municipal court in the two and a half hour session. Quibbling over parliamentary rules of order and boasts of oratory on the virtue of election reforms and the power of the Municipal judges to demand any appropriation desired caused the delays and provoked hot argument and much laughter.

Reduction Totals \$788,000.
The departments affected by the cut,

CRUISER SUBMARINE, BIGGEST EVER BUILT FOR U. S., LAUNCHED

Portsmouth, N. H., Dec. 17.—(AP)—The cruiser type fleet submarine, V-5, the largest submarine ever built for the United States navy, was launched here shortly after noon today. Mrs. Charles Francis Adams, wife of the secretary of the navy, was the sponsor.

Present plans call for the commissioning of the V-5, which was designed for long distance cruising, on May 29 next. The craft is 371 feet long, with a surface displacement of 2,750 tons and a submerged displacement of 3,950 tons. Preliminary trials are expected to be completed on Aug. 1, 1930.

The V-5 is the fifth of a group of nine fleet submarines authorized by congress in the 1916 building program, although appropriations for construction were not made until February, 1925.

Their 1929 appropriations and the amounts declared as final for 1929 are as follows:

| Dept. | 1929. | 1929. |
|---------------------------------|-------------|-------------|
| Board of election commissioners | \$1,575,000 | \$ 800,000 |
| Chief justice, Municipal court | 275,000 | 237,000 |
| Clerk, Municipal court | 1,151,000 | 805,000 |
| Bailiff, Municipal court | 800,000 | 587,000 |
| Totals | \$3,779,000 | \$2,599,000 |

The longest contest of the evening

centered on the appropriation for the election commissioners. Ald. Dorsey R. Crowe (45d), who had requested figures from the committee's staff at the Monday night session, informed his colleagues that \$515,000 of the amount allotted to the election board for this year would be a county expense in 1930. In that case, Crowe argued, the department had not been cut 17 per cent, as the aldermen have tentatively cut the fire and police departments.

"Ald. Crowe is right in his argument," responded Ald. Tammann F. Moran (16th). "Commissioner of Police Russell has stated here that the crooks of the country will be invited to come to Chicago if we cut the police department, yet we are allowing the election commissioners to escape with no retrenchment."

Alderman Frankes Judge.

The argument waxed warm until Ald. Louis B. Anderson (34d) interrupted to commend County Judge Jarecki for his conduct of elections. "I know it is a strange spectacle for a Thompson Republican to defend a Democratic judge against the intentions of aldermen of his own political faith, but I am for clean elections administered by Jarecki," said Anderson. "Though Jarecki has purged elections in the Second ward at the expense of some of my workers, I am for him and want him to have sufficient finances to carry on the work."

The motion of Ald. R. A. Cronson (4th) to allot the department \$390,000, instead of a 17 per cent cut asked by Crowe, carried by a vote of seven to one and ended the discussion. The 17 per cent cut, as figured out later,

would have been only a few thousand dollars less than the amount voted. Chief Justice Olson of the Municipal court was next on the list and the aldermen, with few exceptions, set to their task with zest. Three positions for assistants to the chief justice at a salary of \$6,000 a year each were attacked immediately as political plums by Ald. Sheldon Govier (9th). Ald. Jacob M. Arvey (34th) seconded Govier's attack by declaring that the work is clerical and can be filled by men who would work for \$2,400 a year.

"I don't care if it is mandatory upon us to appropriate the amount asked by the judges," shouted Govier. "The eyes of 100,000 taxpayers are on me and I'll go to jail for contempt of court before I'll let this department escape without a cut equal to that of other departments."

"I won't vote to give Olson a large appropriation. Let him get a mad-dam on us and the taxpayers will know then where the blame belongs. He always did duck responsibility, but we can see now that he doesn't ease all the troubles on to us."

The total amount for judges' salaries was reduced \$27,500 due to va-

cancies on the bench and the aldermen quickly ended the session after dropping 48 deputy clerks and 52 deputy bailiffs without much comment.

With a view of finishing the budget this week, the aldermen agreed to meet today between 4 and 6 p. m. work Thursday night until 11:30 p. m., and continue the Friday session into the early hours of Saturday morning if necessary. The aim, as expressed by Chairman John S. Clark (38th), is to have the budget in the council next week and have it passed by Jan. 2. Time is allowed by this schedule for the clerical work of compiling the budget and for the expected opposition in the council if the police and fire services are slashed.

Spain to Let Employees Draw Pay 2 Months Ahead

MADRID, Dec. 17.—(AP)—The official Gazette today decreed that all state employees of Spain may take their wages two months in advance in order to take care of urgent necessities. It also established the terms for repayment to save them from usury.

SEVERE QUAKE IN NORTH PACIFIC LASTS 3 HOURS

Seattle, Wash., Dec. 17.—(AP)—Some-where in the north Pacific, apparently in the vicinity of the Aleutian island chain where volcanoes recently have been stirred to eruption, a heavy earthquake occurred today.

Seismographs throughout the United States recorded the tremendous upheaval, which lasted nearly three hours.

So severe was the vibration that it shook the east-west needle off the roll of the registering instrument at the University of Washington here.

The presumption that the disturbance was in the general direction of Alaska was supported by United States coast and geological survey officials' reports that they have witnessed terrific eruptions of volcanoes along the south coast of the Alaskan peninsula recently. These eruptions, reports said, came from at least seven mountains, and shot flame and lava hundreds of feet into the air.

26 PCT. HUCKINS AND SON VANISH; ARREST SOUGHT

Victims Tell of 80%
Interest Lure.

Hancock, Wis., Dec. 17.—(AP)—The whereabouts of Elmer S. Huckins, "business wizard," charged with fraud in an Iowa warrant, became a mystery tonight when attendants at his estate near here said he had left for a conference in Hartford, Wis., and the man with whom he was supposed to confer said he knew nothing of plans for any meeting.

Supposedly seriously ill with what at one time was said to be influenza and now a cold, Huckins was said to have departed shortly before 8 p. m. in a car with Val Courtney, the supervisor of his estate. Courtney said they were going to Hartford.

At Hartford, E. T. Rippey, with whom Courtney told newspapermen, the conference was to be held, denied knowing anything of it. At midnight Huckins had not arrived at Hartford. At Watoma, the county seat, Sheriff Schultz said that because the telephone office was closed he could not receive a copy of the warrant until tomorrow.

Son Vanishes Also.

Excelsior Springs, Mo., Dec. 17.—(AP)—George E. Huckins of Cedar Rapids, Ia., who, with his father, Elmer Huckins, Hancock, Wis., has conducted a notorious business reputed to have paid investors from 26 per cent to 52 per cent dividends, has checked out of the Elms hotel here.

Yesterday Huckins registered at the hotel under an assumed name with a nurse. He spent the night in the hotel. It is said he had \$10,000 in currency with him. Tonight he had gone and now could tell how or where.

Both Charged with Fraud.

Cedar Rapids, Ia., Dec. 17.—(Special)—Warrants were issued here this afternoon for the arrest of Elmer S. Huckins and his son, George E., on charges of obtaining money by false pretenses. The warrants were based on true information sworn to by County Attorney Carl Hendrickson against the pair, who are alleged to have obtained more than \$3,000,000 from middle western investors in a 26 per cent interest scheme in the last two years.

The warrants were signed by District Judge H. C. Ring. Two true informations were filed against the Huckinses, a joint one against father and son and one against Elmer Huckins alone. Bond was filed at \$10,000 in the joint information and \$7,000 against E. S. Huckins in the second.

The county attorney acted on information supplied by William Spear, who today sued to recover \$70,000, and Edward Royster, who sued last Saturday to recover \$115,000. Spear is manager of the Cedar Rapids baseball club.

Was Orders for Arrest.
Telegrams were sent to Hancock, Wis., and Excelsior Springs, Mo., ordering the arrest of the men.

The "father list" in the Huckins case was interesting, so far as local "investors" are concerned, in gradually being brought out, and it was pointed tonight that the losses have totalled more than a quarter of a million dollars.

In the \$70,000 suit filed today by Royster, he is acting for himself, Gordon Nequa, partner with Huckins in the retail cigar business here, and Fred Leiser, part owner of the Duquesne baseball club.

How Money Rolled In.
Their first investment was \$600 in October, 1927, which they increased to \$700 in November of the same year.

On January 25, 1928, they invested \$10,000. In June of the same year they reinvested \$5,400. In December \$4,000 and in March, 1929, \$1,500.

From March of this year until September their reinvestments ran from \$10 to \$500, but during September they gave Huckins \$15,000 and in October \$1,000.

Up until November 29 of this year they drew \$10 interest every forty-five days or 80 per cent per annum, on each \$100 invested and proceeded to return the money to Huckins. Spear asserts that on December 11, 1929, he made a demand for the return of his money, but that it was refused.

Western Union Gift Orders Will Be Accepted at Mandel's

LABOR Foe CALLS COAL MINE BILL 'CHICAGO HOLDUP'

Lashes MacDonald in
Bitter Debate.

BY JOHN STEELE.

(Chicago Tribune Press Service.)
LONDON, Dec. 17.—Charges that the Labor government is copying the methods of Chicago gangsters were made in the house of commons today in a debate on the government's proposed coal mines law. Describing the bill as a legalized and codified holdup of the consumer, D. E. B. Macdonald, a Liberal member, in his maiden speech, declared:
"The prime minister told us that he brought back from America was a copy of the Chicago holdup. He said that the Chicago holdup was the technique of Chicago gangsters. The bill is nothing more than a gigantic holdup of the community. But the amateur gangster opposite us [occupants of the ministerial benches] cannot possibly succeed in holding up 43,000,000 people."

Laughter Greeted Outburst.

This outburst was greeted with merriment and laughter and was the only humorous interlude to lengthy and serious contributions to the debate, in which speakers, outside of government supporters, strongly attacked the government's proposals.
William Graham, president of the union of trades, moved for a second reading of the bill in a speech which was obviously designed to meet objections and amendments placed by the Liberal attack. He was particularly severe in condemning the policy of supplying coal to foreigners at a price higher than the home consumer.

Cabinet in Special Session.

Mr. Herbert demanded answers from President Graham to a series of searching questions, on which the Liberal opposition could consider its position before the second reading Thursday night.
In severe was the Liberal attack that Prime Minister MacDonald called an urgent cabinet meeting late tonight. It is understood, in order to consider the important aspects of the bill, which were subjected to criticism. The cabinet met until nearly midnight, and the opinion in the lobby was that there was a probability that further concessions may be offered to the miners.

FACES 2,000 MILE JUNGLE HOP; LIFE OF WOMAN STAKE

(Chicago Tribune Press Service.)
CAPETOWN, Dec. 17.—Lieut. King of the Royal Air Force is attempting a flight of nearly 2,000 miles from Johannesburg to Malanga, 200 miles west of Louisa, Angola, to save the life of a woman missionary who has been bitten by a mad dog.
A cable received by the Rev. F. E. Johnson, bishop of the American Methodist Episcopal church of South Africa, which said Mrs. J. C. Wainwright of the church mission at Malanga had been bitten and is in a serious condition. Request was made for Pastor anti-rabies serum by plane. The bishop arranged for a supply of the serum to be sent to Johannesburg from Capetown and Lieut. King took off today from there for the lonely outpost.

There are no established refueling stops along the route, but gasoline may be obtained at government posts. The country, however, is composed mostly of forests and swamps and the pilot will have to trust to luck in finding a landing place.

\$220,000 IN GIFTS TO U. OF C. TOLD AT JONES DINNER

Degrees Granted at Convocation.

Gifts totaling \$220,000 to the University of Chicago were announced last night by the university president, Robert M. Hutchins, at a formal dinner in honor of George Herbert Jones, donor of the \$450,000 chemistry laboratory recently dedicated. Dr. Hutchins' announcement climaxed the university's 158th convocation service at which seven honorary degrees and 278 academic degrees and certificates were awarded.

The Chemical Foundation of New York has appropriated \$50,000 to be expended during five years of chemical research applicable to medicine. Pierre S. du Pont has given \$20,000 to be expended during two years on chemical research in cancer.

Honorary Foreign Educators.
An anonymous donor has bestowed \$50,000 toward salary increases for outstanding teachers in the undergraduate schools, and the Rockefeller Foundation has given a like sum for studies in comparative philology. Another anonymous donor has given \$50,000 for a purpose to be decided later by the donor.

The degree of doctor of laws was bestowed at yesterday's convocation in the university chapel upon Sir William Henry Beveridge of the London School of Economics, Celestin Charles Bourgeois of L'Ecole Normale Supérieure, Paris; Wesley Clair Mitchell, professor of economics at Columbia university, New York, and Albrecht Mendelssohn Bartholdy, professor of international law and diplomacy at the University of Hamburg, Germany.

Edwin Wilson Speaker.
The degree of doctor of science was conferred upon Moses Gombberg, head of the chemistry department at the University of Michigan; Gilbert Newton Lewis, head of the chemistry department at the University of California, and Norman Augustus Spöhr, assistant director of the coastal laboratory maintained by the Carnegie Institution of Washington at Palo Alto, Cal.

In the convocation address, Edwin B. Wilson, president of the Social Science Research Council, discussed the question "What Is Science?" Following the address, academic degrees were awarded to 255 students and medical certificates to 23 students.

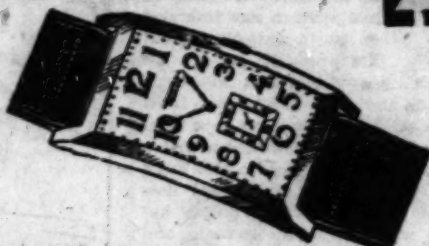

Propose State Subsidies in Australia Coal Strike

(Chicago Tribune Press Service.)
SYDNEY, New South Wales, Dec. 17.—Volunteers manned the Rothbury mine today without any disturbance. At the compulsory arbitration conference Judge G. S. Beeby proposed a resumption of work on the basis of subsidies from federal and state governments and a reduction in the price of coal owners aggregating one dollar per ton, with sales at costs so the industry can continue without loss.

Lisbon Shops Close; Strike Against Cost of Electricity

LISBON, Portugal, Dec. 17.—(AP) All shops and commercial houses except the banks were closed today in protest against the continued increase in prices by the electric light company.
THREATENED WOMAN, GENT SIDE.—Two shabby-faced men, one with a pistol, threatened Mrs. Sophie Breen to her rooming house at 154 South Campbell street yesterday until she opened a trunk from which they took \$120 and escaped after locking her in a closet.

"Give me liberty to know, to utter and to argue freely according to my conscience, above all other liberties."
—Milton.

WHAT A CIVIL RIGHT MEANS.

Judge Kenyon's decision holding the arrest and search of an individual upon suspicion of complicity in the illicit manufacture of liquor emphasizes a principle of law and government which is badly in need of authoritative reassertion at this time. It is that the guarantee of civil right in our constitutional system—in this instance the fourth and fifth amendments of the federal constitution—is intended to apply to the guilty as well as the innocent. We would add that if they did not apply to the guilty they would be a feeble protection of the innocent.

This is a principle which is not respected by the prohibitionist, whose doctrine is that any one guilty of an infraction of the dry laws has no rights under the constitution or elsewhere which the officers of enforcement are bound to respect. With all the prohibitionist's talk of respect for the constitution, by which they mean the 18th amendment and any laws enacted to effectuate it, the prohibitionist has shown no respect for constitutional principle and under his political pressure we have had repeated infringements of the rights of the individual guaranteed by the fundamental law, such as unlawful searches and seizures, unlawful assaults and killings, the evasion of trial by jury, the taking of private property by summary process.

In this situation, which unless resisted bids fair to wipe out our whole system of individual liberty, the declaration of constitutional principle by a distinguished member of the federal bench is most timely, for it is a deplorable fact that too many of our judges have failed in their duty to protect and enforce constitutional principle, although that is the paramount duty for which the federal court was established. It is, in fact, the gravest aspect of judicial history in our time that the federal courts, including repeated majorities of the Supreme court, have permitted infringement upon constitutional principle, revealing either a weak compliance with popular sentiment, which is in the interest of the nation and of free government it is their duty to resist and enlighten, or through their own inadequate grasp of constitutional principle. A perusal of Thomas James Norton's book, "Losing Liberty Judicially," would be useful to every citizen who would know what is happening to his heritage under the pressure of short-sighted single track reform. There is no particular reform preached in our time the objects of which are so vital to the welfare of the American democracy as to compensate us for the loss of our constitutional liberties.

The Kenyon decision is especially valuable because it was given in a case in which the guilt of the defendant was probable, if not certain, and there was therefore a clear consideration of the extent to which a constitutional guaranty extends. Any casual reading of the news by day reveals the need for asserting the full force of our guarantees as in the words of the Supreme court quoted in the Kenyon opinion. Any reference to the widespread and flagrant evils of fanatic and irresponsible dry law enforcement will illustrate the point of these words:

"The effect of the fourth amendment is to put the courts of the United States, and federal officials in the exercise of their power and authority, under limitation and restraint as to the exercise of such power and authority, and to forever secure the people, their persons, houses, papers, and effects against all unreasonable searches and seizures under the guise of law. This protection reaches all alike, whether accused of crime or not, and the duty of giving it force and effect is obligatory upon all entrusted under our federal system with the enforcement of the laws."

"The tendency of those who execute the criminal laws of the country to obtain convictions by means of unlawful seizure and enforced confessions, the latter often obtained after subjecting the accused person to unwarranted and destructive of rights secured by the federal constitution, should find no sanction in the judgments of the courts, which are charged at all times with the support of the constitution and to which people of all conditions have a right to appeal for the maintenance of such fundamental rights."

There is no irony in our history as a nation so sharp as the demand for respect for the constitution by the prohibitionist, who first imported into that document a police ordinance which violates its fundamental character and to enforce this ordinance have shown less respect for the guarantee of constitutional right than has appeared at any period since the constitution was founded.

THE END OF A FLASH.

The Great Flash, Arthur the Whiskered, seems to have passed from a scene which in his brief moment he did much to decorate. Mr. Trafion of the Chicago Bears professional football team

appears to have been about 40 pounds too much for the White Sox flash Monday night in Mr. Mullen's ring and almost too much for himself. At the end of five rounds, three of which had nothing to do with boxing gloves, Mr. Trafion, the winner by decision, could not have broken up a soap box for kindling, and Mr. Shires for a half hour at least did not have a wise crack in him.

Both these gentlemen are husky, but the ring requires something more than that in the way of wind and limb. Mr. Trafion, who, by wrapping Mr. Shires up in the ropes several times, also knocked \$15,000 out of Hack Wilson's bank account, a disastrous wallop. It was almost as good as there if the Great Shires could have popped the Bear earlier instead of getting popped himself.

It has been, nevertheless, a bright episode even if it was too good to last, and the credit for the entertainment belongs to Arthur, who, if he did not have much else, at least had good conversation and courage. The lad would have tried to stay in the ring with a mad elephant. The new era of the prize ring was altogether too brief. It had been hoped that it would get better as it went along and bring in some celebrities who would delight the public by knocking themselves out.

MR. HEFLIN AND THE MAP CONTEST.

Senator Heflin has been read out of the Democratic party in Alabama and that is a matter for general rejoicing. It is a pity that the Republican party cannot purge itself of its Heflins. He may be re-elected despite his party's action, but the odds in his favor have been reduced. He may be succeeded by another of the same sort, but it is impossible to believe that the United States senate will not benefit if there is a change. Mr. Heflin has the distinction of being everything a senator ought not to be.

It may be objected that nothing much better than Mr. Heflin can be expected of Alabama and we are forced to conclude that there is a good deal in that contention. Two statistical showings are pertinent. Alabama is among the first states in illiteracy. At the last census the illiteracy rate for the state was 14.1. While the Negro population contributed largely to the result, the figures reveal that the native born whites of the state are 6.3 per cent illiterate, and the rate for foreign born whites is 10.9. This contrasts with an illiteracy rate of 5.1 for all classes and areas in New York, 4.6 for Pennsylvania, 2.4 for Illinois, and 2.3 for Ohio.

Alabama, likewise, is a state characterized by a vast indifference to political action. In the 1928 election an intense effort was made to bring every voter to the polls. The result was close. Smith carried the state with only 7,000 votes. The population of Alabama in 1928 was estimated by the census bureau at 2,443,000. The total of votes cast in the state for President was only 248,981, rather less than 1 vote for each 10 inhabitants. At the same time the population of New York was 11,550,000 and the total vote in New York was 4,405,000, a ratio of rather more than 1 vote to each 3 inhabitants. The proportion of voters to population was even higher in Ohio and Illinois.

Alabama is a state characterized by illiteracy and political backwardness. In spite of Oscar Underwood Alabama is one of the best arguments for a redivision of the Union along more rational lines than now prevail. A number of competitors in this Tribune's map contest have taken the factors of illiteracy and political incompetence into consideration in their efforts to make an ideal division of the country into states, and we are inclined to think they were well advised to do so. While Alabama's claim to two senators on the basis of her population is fair enough, her claim to representation equal to that of relatively enlightened commonwealths is obviously open to question.

MAKING THE UNITED STATES ODIUS.

The Sunday Chronicle of London has published an article alleging the mistreatment of British subjects awaiting deportation from this country. It is possible that the brutality of our officials have been exaggerated in the interest of Anglo-American amity, but the probability is that the allegations come pretty close to the truth.

Fortunately the charges are specific and can be certified by the federal government, if there is any real desire to mend matters. If the facts are as stated it is to be hoped that the men responsible will be dismissed, if not punished more severely. This might serve to diminish somewhat the ardor of our officialdom, which is intent, apparently, upon making the United States odious.

The bad manners of American officials in dealing with American citizens returning from abroad are notorious. It may be assumed that the behavior of the bureaucrats toward their fellow citizens is mild in comparison with the treatment accorded aliens, for the alien has not even a congressman to whom he may complain. Possibly our government will not undertake to investigate the charges on its own initiative. The representatives of foreign governments whose citizens have been mistreated would then do a considerable service to this country if they demanded an explanation, an apology, and a mending of our ways.

Editorial of the Day

HOW PHILADELPHIA GETS A CONVENTION HALL.

(Philadelphia Public Ledger.)
Proposals for the construction of the convention hall on the grounds of the Commercial museum in West Philadelphia were opened this week, and as the lowest bid fell below the \$1,000,000 of loan funds available, it is assumed that the mayor will award the contract and that work will be begun without further delay. This does not mean, however, that the city will acquire its needed municipal auditorium at a cost within the sum appropriated. What has happened is that certain essential work has been omitted from the specifications, and the money for it will ultimately have to be found by the city.

The final cost of the convention hall will be more than a million and a quarter in excess of the loan balance, because, without the grading and the approaches on the east, the pipe organ and the air conditioning system, the building will be incomplete and incomplete means that the city will have to find the funds for its completion. It is a bad enough thing to go so far to explain the present delinquencies and the difficulties and complications of municipal budget making.

NO SPECIAL PRIVILEGE.

How to Keep Well

By Dr. W. A. Davis

To the limit of space questions pertinent to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries, under proper limitations, when return stamped envelope is enclosed. Dr. Davis will not make diagnoses or prescribe for individual diseases.

(Copyright, 1929, By The Chicago Tribune.)
DON'TS AND MORE DON'TS.
THE bulletin of the Indiana board of health offers a few don'ts for this season of the year.

1. Don't start with death by running your automobile engine in a closed garage. Carbon monoxide gas has been aptly called "the invisible death."

2. Don't skin or dress with rabbits without wearing rubber gloves. Rabbits may have tularemia and you may become infected with the disease.

3. Don't be afraid to eat rabbit meat. It is one of the most nutritious and healthful of meats, and through cooking destroys the infection. We should like to stretch this list of don'ts somewhat.

4. Don't forget there are several sources of carbon monoxide poisoning, such as leaks in gas mains and from stoves.

5. Don't think a gas leakage that is all right when the windows are open is safe when they are closed.

6. Don't drink raw milk lest you contract undulant fever, tuberculosis, or some other disease.

7. Don't eat raw meat, including raw fish, lest you contract trichinosis or some form of tapeworm.

8. Don't be afraid of properly heated milk or properly cooked meat.

9. Don't forget that the winter is the sickly season.

10. Don't use common drinking cups and towels in the winter months.

11. Don't expose yourself to people who have colds, coughs, or sore throats.

12. Don't sit near a person who coughs, sneezes, or blows his nose.

13. Don't stay in a hall or room if the occupants are coughing.

14. Don't fail to get out into the winter sunshine whenever there is any available.

15. Don't fail to exercise out of doors in cold weather.

16. Don't fail to get out into the winter sunshine whenever there is any available.

17. Don't neglect a common cold, since pneumonia or sinus trouble may result.

18. Don't call typhoid fever winter cholera or intestinal flu.

FEARS THAT PASS IN NIGHT.
W. D. M. writes: I do not think you were direct enough in your answer to Mrs. M. whose nine year old girl is obsessed with fears about burglars, darkness and night demons.

You should have told the mother to have her daughter, before going to bed, go over the windows and doors, look under the bed, and explore the closets. She must see for herself that her particular fears are groundless. Explaining and reassuring and general counsel are well enough as far as they go, but they do not go far enough. This specific, almost satirical, advice should be continued until all trace of fear is lost.

WARM WATER IS BEST.
Mrs. A. P. writes: I drink a glass of warm salt water every morning before breakfast for constipation. Do you think cold water is more effective? What shall I do for weak arches? I have tried massage, exercises and arch supports but have no success.

REPLY.
1. No.
2. Walk with your toes turned in. Dance. Exercise the foot muscles by flexing and straightening the ankle joint.

TREATING CRACKED HANDS.
A. T. writes: If Mr. F. K., who has trouble with cracked hands, will try the following, I believe he will get relief: Immerse the hands alternately in very hot and very cold water, keeping each time for a minute or two, and then keep them up for about ten minutes each time, and do it two or three times a day until the cracks are healed. My father has cracked on the tips of his hands, and a friend of mine had cracked heels and was trying all sorts of salves and treatments to no avail. The hotter and colder the water the better, the longer he can keep them under water each time the better.

FRIEND OF THE PEOPLE
Letters to this department must be signed with names and addresses of writers.

WORRIED ABOUT GRUNDY.
Sullivan, Ill. Dec. 13.—(Legal Friend of the People.)—If Joseph Grundy should take the seat in the United States senate, I should like to draw the salary for the entire time the seat has been vacant? 2. Who would get the salary of the clerk of each United States senate is entitled to employ?

MAIL DELIVERIES.
Chicago, Dec. 13.—(Friend of the People.)—For the last two years we have been living west of Austin avenue between Gunnison and Higgins roads. We receive only one mail delivery a day and that arrives at 1 p. m. and sometimes later.

This patron lives in a sparsely settled portion of the city. The carrier route upon which this patron lives is approximately one-half square mile in area, containing 555 delivery places, and the service accorded is one delivery daily, which is the standard service accorded to sparsely settled portions of the city such as this.

Tests of all carrier routes are made at least once each year, and when such tests develop that an area has grown sufficiently to warrant a change of delivery service, the carrier is increased to conform to the requirements of the area. In this case, however, as the case may be, the writer of the letter may be assured that this procedure obtains in his case.

MAX FIELD JUSTLY REPRISOR.
Peoria, Ill. Dec. 13.—(Legal Friend of the People.)—In bankruptcy, when both husband and wife are liable on mortgage note as well as family store debts, may they file a joint petition in Chicago, Ill.?

THE TRIBUNE LAW DEPARTMENT.
In lieu of best answers.
Chicago, Dec. 13.—(Legal Friend of the People.)—1. In the state of Illinois does a wife have to make good her husband's debts? 2. Can a husband turn over his home to his wife or his 17 year old son to avoid seizure of same in case of demand for debts? M. M.

1. Yes as to family expenses; as to other debts, no. 2. The gift could be set aside in favor of creditors of husband.

A LINE O' TYPE OR TWO

How to the Line, let the quips fall where they may.

WHY TYLWYTH TEG.

"But what use is a dog?" So many people have asked us since we brought our little Sealymur Tylwyth Teg back from England. Well, he's taken over Vangie's job of eating contributions that don't stick to the ceiling. Vangie got old and lazy and the contributions piled up on the floor and got into the way, so we had to let her go. Teg has attacked the job with such vigor that he even eats up lots of things that we had written and intended to use in the column, but it's probably all for the best. Then the artist's drawing of him added life and verve and color to the cover of the new Linebook. (We'd say it did! Imagine what a bird who spells his name with nine consonants and a vowel would make of a Sealymur pup!) And Teg's photograph, made after three or four hours' desperate work by Murrell Tinsley, will probably appeal to a lot of you who love dumb animals, and a lot of you do. He is also useful to come into our room at 6 o'clock in the morning and tell us it's time for his breakfast. And the patter of his little feet across the carpet and the shock of his little white body landing full in our midriff as he helps his glee at our return is worth a good deal. Teg made us remember one of Kipling's poems—a poem to which we had paid so little attention when we read it first that we'd all but forgotten it. Teg has given us a better appreciation of that poem. Maybe you've forgotten it, too—or never read it. Anyhow, we trust Mr. Kipling will not mind if we print some of the verses right here and now:

There is sorrow enough in the natural way
From men and women who fill our day;
But when we are certain of sorrow in store,
Why do we always arrange for more?

Brothers and sisters, I bid you beware
Of giving your heart to a dog to tear.

Buy a pup and your money will buy
Love unflinching that cannot lie—
Perfect passion and worship fed
By a kick in the ribs or a pat on the head.

Nevertheless it is hardly fair
To risk your heart for a dog to tear.

When the fourteen years which Nature permits
Are closing in asthma, or tumor, or fits,
And the vet's unbroken prescription runs
To lethal chambers or loaded guns,
Then you will find—it's your own affair—
But . . . you've given your heart to a dog to tear.

When the body that lived at your single will,
When the whisper of welcome is stilled (how still!),
When the spirit that answered your every mood
Is gone—whatever it goes—for good,
You will discover how much you care,
And will give your heart to a dog to tear!

STR JAMES JEANS. The British astronomical expert, tells us that light, or radio waves traveling with the same speed as light, take 4.27 years to reach the nearest star, so that the inhabitants of Proxima Centauri would be four and a quarter years late in hearing the radio broadcast of a concert on the earth. If Sir James means the same jazy band that we heard last night from our loud speaker, we hasten to congratulate the inhabitants of Proxima Centauri.

HAVING BEEN thoroughly bawled out by many of the readers of the Column of Connipion because in a little story we spoke of the gala wearing of the white coat and the attention of one and all to a fashion note from Paris which came hot off the wire yesterday. It said as follows, to wit—namely: "The up to date version of the petticoats which are in great demand is a flare, lace hemmed affair on a fitted yoke." So there now. Go on and read your old Godey's Lady Book and let our style comments alone. Gosh, we just know everything!

THE DEMOCRATS in Alabama have read Sen. Heflin out of the party. Which to one of Sen. Heflin's mental makeup will hurt him just as much as the kick of a grasshopper would hurt a rhinoceros.

WISE LADY.
Strained my sides, with jeering laughter.
I will sit and fold my hands—
Watching simple folk street after
Noisy bands.

In the dusk I see them coming.
Waving 'p' collapsed balloons.
Trailing home, I hear them humming
Lilting, half-remembered tunes.

On my shelves there lie, a-rusting,
Painted whistles, horns of tin,
Paper hats in need of dusting,
Dolls, I chanced my dimes to win.

Light my lamps and close my shutters.
Pease from sunlight—pease from rain.
Hush your scolding—hush your mutters—
Crying after pain!

LAGNIAPPE.
A LETTER written by a Confederate soldier in a northern prison in 1864 has just been delivered in his old home town in Tennessee. Too bad! The folks down there were just beginning to think the Civil War was over.

THE LEIF ERICSON drive was opened in Chicago yesterday. Left is the man who discovered America first but didn't think it was worth writing home about.

THE HEAD of the U. S. secret service in New York wants everybody to be careful about the new one hundred dollar bills they accept in making change, as there are a lot of counterfeiters floating about. Oh, gosh, now we've got something else to worry about! Dear, dear, dear! Now, every time a street car conductor or a taxi driver hands us our change we're going to be scared to death for fear of getting back one of those bogus bills.

DAYS in which we have not seen the sun in Chicago. We expect Mr. Hoover will immediately appoint a commission to visit the sun and make a full and complete investigation.

THIS, dear friends, is December the 18th. Just one week more! Have you? WHAT! NO! Gosh! Neither have we!

65 YEARS AGO TODAY.
DECEMBER 18, 1864.
WASHINGTON.—Gen. George H. Thomas at Nashville reported on the victory his army achieved over the rebel forces of Gen. Hood. One of the most surprising circumstances in the small loss suffered by our troops. Gen. Thomas' report says that Brig. Gen. Hatch of Wilson's cavalry captured the rebel forces of Gen. Hood's left. Johnson and Coston are a large number of prisoners. Maj. Gen. Schofield's corps, next on the left of the cavalry, carried several hills and captured many prisoners and six pieces of artillery. Gen. A. J. Smith, on Schofield's left, with McMillan's brigade of McArthur's division, captured 16 pieces of artillery, 2 brigadier generals, and 2,000 prisoners. Gen. Gerrard's division carried the enemy's entrenchments, capturing all the artillery and troops of the enemy on the line. Brig. Gen. Wood's troops took up the assault and on the enemy's retreat captured eight pieces of artillery and more than 600 prisoners. Maj. Gen. Stedman nobly supported Gen. Wood's left. Johnson and Coston are pursuing the rebels. Our loss probably does not exceed 300.

WASHINGTON.—Gen. Foster, who on Dec. 14 had a personal interview with Gen. Sherman, reported to the war department. At that time Gen. Sherman was in Fort McAllister, which he had taken by storm, and he was closely besieging Savannah. His capture with the rebel forces there was confidently expected. Sherman planned to demand the city's surrender in two days, and if the demand was refused to open his batteries upon it.

CHICAGO.—George A. Condit and Miss Sarah Ann Tobias, both of Will. Will county, were married at the home of the bride's father on Dec. 13 by the Rev. J. Geo.

30 YEARS AGO TODAY.
DECEMBER 18, 1899.
LONDON.—The following notice was posted at the war office: "As the campaign in Nal, in the opinion of her majesty's government, is likely to require the presence and undivided attention of Gen. Sir Revers Buller, it has been decided to send Baron Roberts of Kandahar and Waterford as commander in chief in South Africa, with Lord Kitchener as chief of staff."

The government is thoroughly alarmed over the prestige lost in the successive defeats, especially that of Buller at Tugela river, and the action mentioned in the notice is the result of a decision to adopt heroic measures. Fifty thousand more troops will be sent to South Africa at once.

STERKSTROOM.—As a result of the British reverses the whole country northward is in rebellion.

CHICAGO.—Mrs. Jacob Birk, 1901 Wellington avenue, wife of the founder of the Birk Brewing company, dropped dead on an Evanston avenue street car.

10 YEARS AGO TODAY.
DECEMBER 18, 1919.
NEW YORK.—The World prints the following under a Washington date line: "Attorney General Palmer will announce tomorrow or the next day the agreement of the 'Big Five' to dissolve all packing interests except those directly involved in the production of meat, poultry, butter, eggs, and cheese. Every other activity to which the packers have extended their business within recent years is to be cut off. Control of the stockyards is to be surrendered in addition to all relations with banks, railroads, and storage plants, dry or cold."

CHICAGO.—The board of education elected Peter A. Mortenson superintendent of Chicago schools. An associate superintendent he had been setting as head of the schools since Dr. Charles E. Chadsey resigned. His salary will remain at \$12,000 a year. The salary of \$15,000 which Dr. Chadsey received was voted under the anti-Thompson regime and does not hold under the present rule.

CHICAGO.—Miss Mollie Etzelson, daughter of Mr. and Mrs. Benjamin Etzelson, 2224 South Michigan boulevard, and a sister of Corporation Counsel Etzelson, was married to Dr. Alfred J. Minkind of Denver at the Blackstone hotel by the Rev. Tobias Schanfarber.

FROM THE TRIBUNE'S COLUMNS

65 YEARS AGO TODAY.

DECEMBER 18, 1864.
WASHINGTON.—Gen. George H. Thomas at Nashville reported on the victory his army achieved over the rebel forces of Gen. Hood. One of the most surprising circumstances in the small loss suffered by our troops. Gen. Thomas' report says that Brig. Gen. Hatch of Wilson's cavalry captured the rebel forces of Gen. Hood's left. Johnson and Coston are a large number of prisoners. Maj. Gen. Schofield's corps, next on the left of the cavalry, carried several hills and captured many prisoners and six pieces of artillery. Gen. A. J. Smith, on Schofield's left, with McMillan's brigade of McArthur's division, captured 16 pieces of artillery, 2 brigadier generals, and 2,000 prisoners. Gen. Johnson and Coston are pursuing the rebels. Our loss probably does not exceed 300.

"TORCH" VICTIM INSISTS HE'S NO CORPUS DELICTI

Man Trial as His Slayers
Back Him Up, Too.

(Picture on back page.)

Mountain View, Ark., Dec. 17.—(Special.)—The sovereign state of Arkansas today began its effort to unwind and untangle the myriad strings and loose ends which constitute the mystery of the Ozarks. The prosecution pulled out a string here and a loose end there, and then they began to stretch and the mystery would become more mysterious.

The state began its case against one of the five men who are accused of having tortured to death Connie Franklin, and having burned his body last spring.

Proof of Corpus Delicti.

The first testimony was to show proof of "corpus delicti," the visible evidence that some one had been killed. They produced a little pile of bones which they claimed were the mortal remains of Franklin.

They put on the stand Dr. G. W. Garrison, state health officer, who reported that the bones, found in a cave, were human bones. Dr. Garrison testified that the skeletal bones—a part of the temple—on which he had based his earlier report, was missing, and that he could not say the others were those of a human being.

The defense is doing a little "corpus delicti" itself, for it has sitting in a courtroom a man who is ready to testify that he is Connie Franklin, alive and well; that he was not dead at the night he was supposed to have been murdered, but may have been drunk.

"No Corpus" for Connie.

And Connie, as a free born Arkansan, says he "don't choose to be called a corpse, whether it is delicti or not." In fact, thinks it's a sort of "corpus" word at best.

Then the state put on the stand Tiler Hummer, 17 year old girl, who went before the grand jury and asked the indictment of five men.

Her story to the jury was that she and Franklin were on the way to get a marriage license when they were set upon by the five. Connie was beaten, and killed unconscious. Thrown into a brush heap fire and portions of his body thrown into a river.

Tiler testified that she saw the men beating Franklin with brass knuckles and clubs. She said while Franklin was lying there gasping for breath one of the defendants, Herman Greenway and Robert Heister, assaulted her. Tiler admitted she had not seen Franklin burned or dead, but said that she saw Greenway and Heister told her they had killed Franklin and that she never had seen him since. The girl denied that the man brought here by the defense was her sweetheart.

June Chasid joined the state when he testified he believed the man brought here really is Connie Franklin. John Burns said now he believed Franklin was the real one.

Defense Presents Its Side.

This wound up the state's case. The defense moved a directed verdict of not guilty, but Judge S. M. Bone ordered the defense to put in its case.

The four defendants took the stand. They were Greenway, Heister, White, and Alvin Folke. They admitted there had been a party out in the mountain woods. They, the fifth man accused, Bill Truener, and Franklin had got into a fight over "mountain milk," a potent liquid which is found in just on tree stumps.

After several jugs of this there ensued a joyful fight; their testimony wound up that. But no one was murdered. They did not gang Connie, it was just a friendly free-for-all.

After it was over Connie, after several attempts to board his mule with disastrous results, finally got to the river and went away. He went away, he heard bloody but unbowed.

Put Blame on Hummers.

The real trouble, they said, was that members of the Hummer clan took advantage of Franklin's absence to accuse five innocent men who happened to be of another clan.

What remains to be told on the stand was outlined in the opening address of the defense counsel. Prosecuting Attorney Hugh Williamson had asked his case this morning when his lawyer Ben, chief counsel for the defense, took the stand.

Ben Williamson said the defendants were intoxicated as they were on their way to Mountain View to obtain a marriage license for Connie and the Hummer girl. They did not complete the trip.

The next day, he said, Tiler told Franklin she wanted to postpone the wedding until fall and thereupon he told her if she did not marry him at once she never would see him again.

A natural wanderer, Franklin drifted away from St. James to be seen in this section no more until he was brought back ten days ago from a home at Humphrey, Ark.

REGULIN NEW YORK

Store Hours

Until Christmas the main store hours are: 8:30 a. m. to 6 p. m. The Suburban Stores in Evanston and Oak Park are open from 9 a. m. to 9 p. m.

Ask Mr. Smith

If you don't know just what to give—our Mr. W. T. Smith, on the First Floor, in The Store for Men, will be glad to suggest appropriate gifts for men. His experience with men's merchandise makes him a particularly capable counselor.

Western Union

Gift Orders are accepted any time in our Downtown and Suburban Stores.

Gift Wrappings

are available on the first floor, on the third floor in the Fancy Goods section and on the sixth floor, south, State.

The Personal

Shopping Bureau If you are unable to do your own shopping—or prefer not to come downtown, our Personal Shopping Bureau will fill all telephone or mail orders.

The Gift Bureau

offers an individual store wide service in the selection of gifts. Gift secretaries will conduct you around the store to aid in selection. Second floor.

Gift Certificates

Are you undecided at this late date just what to give HIM for Christmas? If a study of this page does not make up your mind—rush up to the nearest floorman or go to the first floor, State, or Wabash, or to the Store for Men and purchase Gift Certificates.

Ladies—let us decide what is THE PERFECT GIFT FOR HIM!

The Afternoon Bridge Club holds its last meeting before Christmas and the members agree to abandon cards in order to discuss their husbands . . . and what to give them.

"Oh-dear-oh-dear-oh-dear" sighs the little body on the right. "I simply don't know what to give my John—he's so different in his tastes."

"If only Bernard were just a bit bigger so he could wear knickers and golf hose," ponders the beaming soul in the center, who is proving a large help by listing the various suggestions. —"and mine is so outdoorish"—mine is—"

So it goes. Of course, their worries will be over the minute they come to Field's for at The Store for Men and in the Main Store they will find hundreds of solutions to the problems which seem to be troubling them so—poor dears.

Perfect Gifts for Him Selected from the Main Store

for the man

who motors

KING OF SPAIN TO SEND PROXY FOR ROYAL WEDDING

Roman Court Circles Gossip About His Action.

(Chicago Tribune Press Service.)
NICE, France, Dec. 17.—(AP)—King Alfonso of Spain will be missing from among reigning monarchs and princes, who will be guests of the royal family of Italy, at the wedding of Crown Prince Umberto and Princess Maria-Jose of Belgium, on Jan. 8. He has decided to send one of the Spanish Infantas as a representative, according to the Italian press.

Two weeks ago an announcement from Rome that both King Alfonso and Premier Primo de Rivera were coming to Rome for the wedding was immediately denied at Madrid. King Alfonso's absence is regretted in Rome's court circles, where his presence was expected to add to the pomp and prestige of the ceremonies by being the fifth crowned head at the wedding, the others being the kings of Italy, Belgium, Sweden, and Bulgaria.

King's Action Causes Gossip.
King Alfonso's absence, inasmuch as he came to Italy two years ago to attend the nuptials of the duke of Apulia, cousin of King Victor Emmanuel of Italy, and Princess Anne of France, daughter of the duke of Orléans, pretender to the French throne, celebrated in Naples November 1927, has led to comment in diplomatic circles, said to be quite indiscreet. Various causes are assigned as the reason for King Alfonso's decision to stay away.

One, it is said, is that the Spanish court sees in the marriage one chance to find a suitable husband for

DWIGHT W. MORROW ACCEPTS APPOINTMENT AS N. JERSEY SENATOR

(Picture on back page.)

Washington, D. C., Dec. 17.—(AP)—Dwight W. Morrow today formally announced his acceptance of the appointment as senator from New Jersey upon resignation of Senator Baird. He was appointed by Gov. Morgan F. Larson.

The ambassador to Mexico will assume the new duties as soon as his work as a delegate to the London arms conference has been completed. Senator Baird was appointed to fill the vacancy caused by the resignation of Walter E. Edge, who was selected by President Hoover as ambassador to France. Baird will relinquish the office in favor of Morrow.

King Alfonso's daughter, Princess Beatrice and Princess Maria Cristina. Another European monarch, concerning whose presence at the wedding nothing is being said, is King Zog of Albania, who rules the tiny kingdom on the other side of the Adriatic. He has only been king a couple of years, and besides he finds it difficult to travel without an ample well armed escort.

King Alexander May Decline.
It is not likely that King Alexander of Yugoslavia will attend the wedding either, although he is closely related to Queen Elena, formerly Princess Elena of Montenegro.

Other relatives of the queen—princes of Montenegro, who lost their reigning functions through the late President Wilson's insistence on rearranging the map of Europe at the Versailles peace conference—will be present. Among them will be the queen's brother, Prince Peter, who married an English girl and the daughter of a London policeman. Prince Peter and the princess are already in Rome under the strictest incognito at a hotel.

GAS KILLS WOMAN.
Mrs. Mary Kull, 80 years old, 1843 Throop street, was found asphyxiated by gas in the kitchen of her home late yesterday, where she is believed to have died while sleeping. Her death was reported by her son.

FRANCE BLAMES DUCE AS CORSICA EXHIBITS UNREST

BY JAY ALLEN.

(Chicago Tribune Press Service.)

PARIS, Dec. 17.—Italian irredentist propaganda is rife in the French island of Corsica, says the Parisian daily, Le Quotidien, in an article which hardly will improve relations between the two countries, already strained because of Italy's alleged pretensions to Savoy and Nice and France's refusal to expel Italian political refugees.

The island, where Napoleon was born and which has given France some of her most famous figures, is said to be swarming with Fascist agents, trying to stir up the Corsicans

against the French. At the present moment, some islands show discontent over the roads, which France seems to have neglected. Premier Mussolini's envoys are attempting to capitalize on this.

Protest Road Roads.

The Corsicans claim that roads in northern regions of the island are almost useless for auto traffic. Protest mass meetings have been held at Bastia, Calvi, Ghisonaccia, and elsewhere.

Many islanders threaten to come to Paris Jan. 1 and stage a demonstration before the ministry of public works. Corsican authorities, on the other hand, threaten reprisals if the islanders go to Paris.

Fascist agents have spread handbills over the island reading: "Such things could not happen under the Duce's regime. France crushes you with her taxes. You pay for the functionaries she sends to annoy you. She ignores your plights. All this would be changed the day the Italian flag was hoisted at Ajaccio."

Loyal Corsicans Warn Paris.

Numbers of loyal Corsicans have been moved to action by this Italian propaganda and have communicated with Paris, warning the government of the presence of propagandists.

Corsica's population is 200,000, most of whom are engaged in the growing of wine, live stock, and timber. They speak an Italian dialect. But the island has been French so long—since it was ceded by Genoa in 1768—that all Corsicans look to Paris. There was Napoleon. Now there is Jean Chiappe, Paris prefect of police. One of the greatest of French criminal lawyers, Maître Moro-Giaffuri, is a Corsican. Corsican restaurants abound in Paris.

A school for children of Italian immigrants in Paris, directed by the Fascist bureau for foreign propaganda in Rome, was discovered recently to be teaching its pupils that Corsica was part of the domain ruled by Premier Mussolini for King Victor Emmanuel and that so was Nice and Savoy.

NOT SLENDER BROWNS.
Bismarck, Ind., Dec. 17.—(Special.)—Robert Hesterman, 41, was of Mr. and Mrs. J. F. Hesterman, drowned this afternoon when his sled broke through ice on the St. Joseph river.

Store Hours Until Christmas: 9 A. M. to 6 P. M. CARSON PIRIE SCOTT & Co

This Is the Annual Selling in Which the Art Needlework Section Presents Its
Finest Individual Pieces At Very Special Prices

Women most exacting in the matter of gift choice find their tastes and needs met in this important sale. Here are those exquisite articles in hand-work which makes such perfect gifts "for the woman who has everything," as well as for her who looks to Christmas for a lovely accessory which she would not buy for herself.

Prices Vary with Kind:

Chaise-Longue Covers of Lace Over Satin
Hand-Quilted Taffeta Covers
With Scalloped Pleated Valance
Log-Cabin Patch-Work Taffeta Covers

\$50 to \$95

Pillows of Lace, Taffeta and Velvet
Old Brocades with Velvet
Priced According to Kind

\$5.50 to \$45

Lingerie Cases of Pastel Taffeta
Hand-Quilted Cases of Crepe and Taffeta
Priced According to Kind

\$10 to \$20

Boudoir pillows, boudoir dolls, jewelry cases, scrap baskets, and many other exquisite little articles for the boudoir. Low as the prices are, they in no way express the values; actually seeing these articles only can do it. In view of these exceptional values and the fact that most all the articles are "one of a kind," early choice is suggested.

WETS TO FIGHT DRY LECTURER AS U. S. JUDGE

Washington, D. C., Dec. 17.—(Special.)—Wet leaders in the senate, headed by Senator Millard E. Tydings (Dem., Md.), are prepared when the senate convenes tomorrow for a showdown fight over confirmation of the appointment of Judge Richard J. Hopkins of Kansas, lecturer for the Anti-Saloon league, as a federal judge.

Debate on President Hoover's nomination of the Kansas dry orator started late today when Senator Arthur Capper (Rep., Kas.) took the floor in open executive session to defend it. Tydings was on his feet at recess time and was promised the floor to make his reply tomorrow morning. He was armed with data to show that Hopkins, as a prohibition propagandist, is unfit for federal judgeship.

Earlier at today's session the senate, by a vote of 53 to 22, confirmed the appointment of Albert E. Watson as federal judge of the middle district of Pennsylvania. Radicals in the senate fought this appointment on the ground that it was influenced by W. W. Atterbury, president of the Pennsylvania railroad and Republican national committeeman.

Although indications are that the drys will have the votes to push over the confirmation of Hopkins, the Tydings group believe they have a strong position. The case, they contend, involves not merely the prohibition angle, but the deeper question of whether a paid agent of a propaganda society is qualified to sit on the federal bench.

Senator Capper, in his address, recounted the long list of political offices held by Judge Hopkins, including that of Kansas attorney general and justice of the state supreme court, where he now sits. He also read into the record numerous letters of indorsement, among them one from William Allen White of Emporia,

Kan., publisher and prominent dry law advocate. The White letter, declaring that the Anti-Saloon league, "has not dabbled in politics for fifteen years," added that the sums received by Judge Hopkins from the league were for traveling expenses.

"Isn't it odd," Senator Tydings interjected, "that all of his vouchers, except one, were for \$100 each?" Senator Capper answered by reading an affidavit from Hopkins stating that he received from the league a total of \$1,355 in 23 checks of various sizes. These, he asserted, did not represent pay, but "traveling expenses" to Anti-Saloon league conventions in Washington, Chicago, and elsewhere.

Paid After Being Judge. Senator George Norris (Rep., Neb.) asked if any of the Anti-Saloon league money was paid to Hopkins after he became supreme court judge. Capper admitted that "some of it was."

"Isn't it a fact that practically all of it was?" demanded Tydings.

"No," Capper answered. "About one-tenth of it—to be exact, a total of \$265—was received after he became supreme court judge."

Senator Tydings, after these inquiries, permitted Capper to finish his statement uninterrupted, but announced that he would have more to say on the "traveling expenses" tomorrow.

Charges Against Judge. Senator Tydings' line of attack was indicated six weeks ago after the subcommittee hearings on the Hopkins nomination, when the Maryland senator filed detailed charges against Judge Hopkins. The charges reviewed the Kansas Anti-Saloon league scandals of 1925, which led to the dismissal of Fred L. Crabbe, then superintendent of the Anti-Saloon league.

"Richard J. Hopkins was an active member," the charges state, "of the headquarters committee of the Anti-Saloon league of Kansas and also a member of the executive committee of the National Anti-Saloon league, and with the full knowledge of these and other serious charges reflecting upon the integrity of Crabbe he attempted to protect him in his office and to prevent his public exposure."

"Crabbe, as superintendent of the Anti-Saloon league, paid out large sums of the league's funds to cause the election of Hopkins to the supreme bench of Kansas."

LEWIS' LAWYERS READ AFFIDAVITS IN UNION BATTLE

Springfield, Ill., Dec. 17.—(AP)—With five attorneys reading in relays of one hour each for more than ten hours presentation of motions and affidavits by John L. Lewis, international president of the United Mine Workers of America in his effort to retain control of the Illinois district of the organization was concluded in the Sangamon county circuit court late this afternoon.

Reading of 361 pages of affidavits supporting the position of State President Harry Fishwick, who has obtained a temporary injunction restraining Lewis from ousting the state officers, will start tomorrow morning. Oral arguments probably will begin tomorrow afternoon.

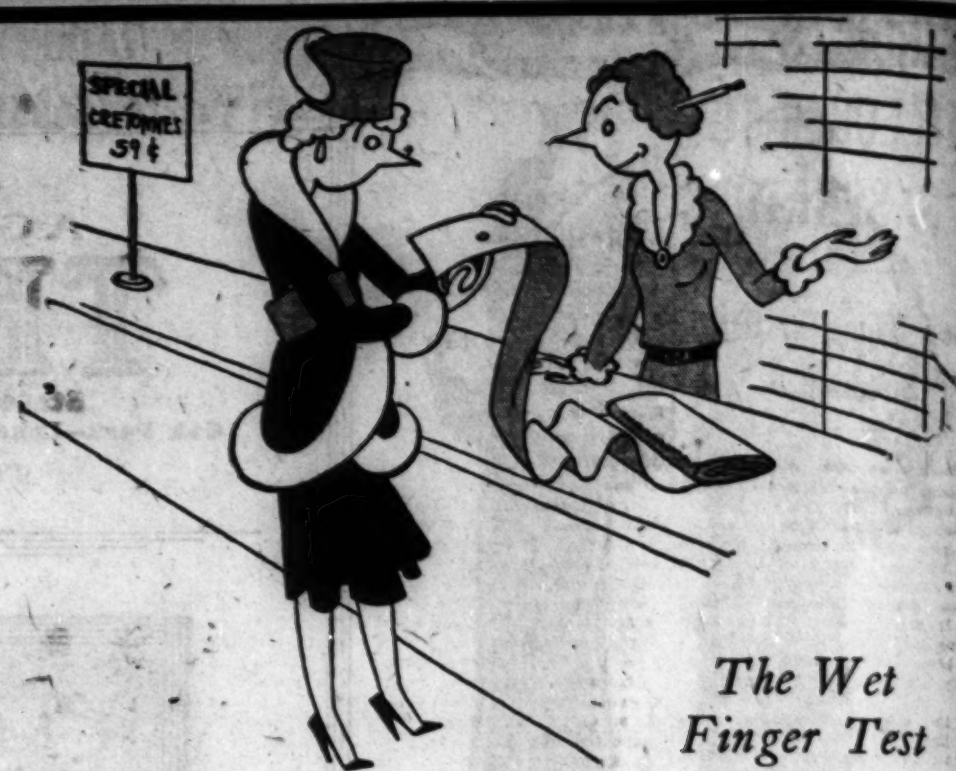

One Tilt to Evolve Case. Hearing of Lewis' motion to dissolve the temporary injunction was started Monday. With the exception of a tilt between former Supreme Court Justice Floyd Thompson and Attorney Edmund Burke of Springfield, this morning, the hearing has been confined to the reading of papers on file in the case.

International President Lewis maintains that he acted within his power in revoking the Illinois state charter and ousting the officers.

Union Policy Is Cited. He declared that the obtaining of an injunction by Fishwick was repugnant to the union policy and was without equity as the state officials should have appealed to the international union rather than to the court.

Fishwick, on the other hand, contends that Lewis' term of office expired in March 1925, and that he had no authority to revoke charters of any union.

GUNMAN KILLS STORE MANAGER. A gunman held up Emil A. Chandle, 1045 Sedgewick street, yesterday in the National Tea store at 5019 North Western avenue, which Chandle manages, and escaped with \$30.

The Wet
Finger Test

Our Guarantees Are Backed

by an "All Seeing" Microscope

Do you place a wet finger as a test under a piece of linen to see how quickly the moisture will come through? Do you burn a thread from a piece of material to see if it is all wool? Many shoppers still do!

The Davis Company's large testing laboratory (operated by experts from the United States Bureau of Standards) depends on the "all seeing" microscope and other instruments to answer our fabric problems. There is no "guess work"—because facts only are accepted.

"It would be impossible for us to test every item of merchandise we sell. However, by testing, we eliminate undesirable merchandise."

Our Testing Laboratory Is Conducted by Experts
Trained in the United States Bureau of Standards.

Stormy Weather Due Don't worry, MADAM!

Here's a Snug New Zipper...

The very LATEST VOGUE

In smart, stormy-day footwear

JUST ask for them in any good store... the clerk will know what you mean!

Just say, "Let me see some Goodrich Shower Boots"... and watch him bring out the daintiest, smartest, lightest bit of outer footwear you ever saw!

Introduced only last year, Shower Boots have set a new vogue in stormy-day footwear. And for good reason!

To begin with, they're just as smart as any shoe or slipper you see in today's best shops. Cut to fit with glove-like perfection. So neat the trimmest ankle gains new grace...

And in beautiful tonings of tan and henna, black, and gun metal moiré

rubber, they fit perfectly into any ensemble.

See the new Shower Boots at your favored store at once! They are being shown with the new Goodrich Fabric Zippers... smart new numbers of the famous Zipper line that match the Shower Boot for smartness, fit, and harmony of colors.

Go shopping for your Shower Boots now... and you'll be ready to meet bad weather with full protection for costly, dainty footwear.

The B. F. Goodrich Rubber Company, Established 1870, Akron, Ohio. Pacific Goodrich Rubber Company, Los Angeles, California. In Canada: Canadian Goodrich Company, Kitchener, Ontario.

Here's real protection from stormy days! Dainty... and smart, too... as any Cinderella's slipper! The all-rubber Shower Boots add a neatness to the stormy day ensemble never approached before.

7 ounces! That's all they weigh. Shower Boots are no heavier than your daintiest evening slipper.

A smart new Shower Boot (right) of tan moiré rubber with the new invisible slide fastener. They are all rubber add fit like a glove... Washable... a damp cloth removes all traces of mud and grime. Be sure to look for the name Goodrich before you buy.

Here's a new Goodrich Fabric Zipper. Brown and gray toned. With reversible cuff. Warm enough for winter wear without too much warmth.

Goodrich Zippers

SHOWER BOOTS AND FABRICS

CARRY ON WITH THE TRIBUNE!

Banish winter gloom from the family circle!

Leadens skies intensify the cheerlessness of bleak, raw days. Your children shiver as they trudge to school. Biting winds chill your wife to the bone as she ploughs through slush on her way to the store. The spectre of illness is never far away. Wintry streets are one of its favorite breeding places.

Don't let your loved ones fight winter discomfort needlessly. Get them a good warm car. A dependable used car, easy to buy, would safeguard them against winter's greatest dangers.

Hundreds of dependable used cars of every make and type are listed every day in Tribune Want Ads. They're priced to suit every purse. You'll find the one you'd like there, at the figure you want to pay. Most of them can be had on easy terms. Why not start shopping for yours in today's Tribune Want Ad Section? It's a small price to pay for your family's comfort this and future winters!

Every day Chicago holds its

JURY INDICTS BOOTLEGGER U. S. SENATOR

Trapped Twice in
Building.

(Picture on back page)
Washington, D. C., Dec. 17.—(Special.)—George L. Cassidy, better known as "the man with the green suit," indicted by the District of Columbia grand jury today on a charge of grand larceny, was arrested on Oct. 31, was arrested on the same office building, and was arrested on the same office building. Cassidy, according to the indictment, was peddling liquor among the thrifty statesmen of the building. He was seen return to his car, and then to a room, carrying the bottle. He said they found two men in the car and upon releasing them, 180 quarts of the brand of hard intoxicant. "The man in the green suit" was arrested after a long search, filled with liquor, was the corridor of the house of Congress. At that time he was after the authorities failed to see the ownership of the not until he had gained no attention.

Fourteen More Indicted
Fourteen other indictments of prohibition laws were by the grand jury today, on that of a precinct detective with selling houses as an excuse. Four others were the result of investigation of 48 places in the city by the city editor Washington Times after a printed by that paper. An of the Times exposed was a of three reporters who refused to relate to their story liquor in the speakases. They were released last week for 45 days each.

Some Claws Fall As
The grand jury report dec out of the list of 48 places, a found to be nonexistent, on east, and another was und by court order. In 34 of under cover agents were buy liquor. This was not surprising, however, in a warning broadcast in a publicity about the list.

WOMAN KILLED BY
Broadway, Ill., Dec. 17.—(Special.)—Charles Block, 75, was killed by a car and a woman, a Southern Illinois train while on tracks here.

JURY INDICTS BOOTLEGGER TO U. S. SENATORS

Trapped Twice in Office
Building.

(Picture on back page.)
(Chicago Tribune Press Service.)
Washington, D. C., Dec. 17.—(Special.)—George L. Cassidy, better known as "the man with the green hat," was indicted by the District of Columbia grand jury today on a charge of violation of the Jones-Walker act. Cassidy, an Oct. 11, was arrested on the steps of the senate office building with a gun of booze under his arm.
Casidly, according to the police, apparently was peddling his wares among the thirty senators inside the building. He was seen to enter, return to his car, and then to start to deliver, carrying the bottle. The police said they found two more quarts in the car and upon raiding his home seized 288 quarts of the choicest brand of hard intoxicants.
"The man in the green hat" got his title several years ago when he was arrested after a leaking brief case, filled with liquor, was found in the corridor of the house office building. At that time he was released after the authorities failed to establish the ownership of the case, but not until he had gained nationwide attention.
Fourteen other indictments for violation of prohibition laws were returned by the grand jury today, one of them was of a precinct detective charged with selling booze as an avocation.
Four others were the result of an investigation of 49 places listed before the jury by the city editor of the Washington Times after an exposé printed by that paper. An outcome of the Times exposé was the jailing of three reporters who refused to testify relating to their purchases of liquor in the speakeries. The reports were released last week after serving 45 days each.
House Closes Fall Apart.
The grand jury report declared that out of the list of 49 places, seven were found to be nonexistent, one was vacant, and another was under padlock by court order. In 34 other places under cover agents were unable to buy liquor. This was not considered surprising, however, in view of the warning broadcast in several days' publicity about the list.

Woman Killed by Train.
Baltimore, Md., Dec. 17.—(Special.)—Mrs. John Smith, 75, was killed today when she was struck by a Chicago and North Western train while crossing the tracks.

LAREDO WANTS CALLES INCIDENT BOYCOTT LIFTED

U. S. Appeal to Mexico
Urged by Gov. Moody.

Laredo, Tex., Dec. 17.—(Special.)—The boycott of Laredo, the chief port of entry on the international border, following attempts of District Attorney John A. Valle to arrest Plutarco Elias Calles, former president of Mexico, on a charge of conspiracy to murder, tonight had created a situation drawing the attention of officials of two governments.
After ordering the consulate at Laredo closed, and passport privileges for tourists through Laredo embargoed as a retaliatory measure, Mexican Consul General Enrique Santibanes declared that Valle's activities were those of an "obscure judicial officer" who might have precipitated a serious incident between two republics.
Business men of Laredo held a mass meeting today, and at their request Gov. Dan Moody appealed to Secretary of State Stimson "on behalf of innocent persons and commercial interests who were not responsible for the actions of any individual."
Gov. Moody asked the state department to request the Mexican government to reconsider closing of the consulate, saying the people of Texas and Laredo are "friendly to the people of Mexico," and that citizens of Laredo had planned a public reception for Gen. Calles upon his arrival in the city yesterday but were prevented from greeting him because his train did not stop.
Santibanes in his statement said: "My government has decided in order to prevent the recurrence of such painful incidents to deviate the commercial traffic flowing through Laredo to other places where Mexican citizens working for the betterment of relations between two sister republics may travel freely and live in peace."
Valle relinquished his plans to arrest Calles, who passed through Laredo last night en route from New York to Mexico City, only after receiving specific instructions from the department of state.

Pistol Found in Alley

Discharges; Youth Shot

Harry Pomerantz, 19 years old and unemployed, will not spend Christmas with his mother in Detroit, as he planned. He was going from his room at 4544 South State street to the home of his chum, Burt Rogers, 18 years old, 6608 South Michigan avenue, to bid him good-by before starting home when he found an old pistol in an alley. He was examining the gun in Rogers' room when it was discharged, the bullet piercing his chest. Surgeons at St. Bernard's hospital said his recovery would require at least a month.

S. P. M'NAUGHT TO FILL SHUMAKER POST IN INDIANA

McBride's Choice Keeps
League in Politics.

Indianapolis, Ind., Dec. 17.—(Special.)—The same awe of the national Anti-Saloon league which has always ruled the Indiana Anti-Saloon league for tourists resulted in the choice of S. P. McNaught as the successor of E. S. Shumaker as superintendent of the Indiana field.
McNaught, who since 1925 has been the superintendent of the Iowa Anti-Saloon league, was the choice of F. Scott McBride, national Anti-Saloon league superintendent. Opposed to him were the Rev. G. H. Winters, vice president of the Indiana league and acting superintendent since Shumaker's death, and E. A. Miles, attorney for the Indiana league. They thought that in any event Shumaker's successor should be a Hoosier.
McBride by telegram nominated McNaught, and the latter was chosen today.
It is now pointed out, however, that Winters blundered in the eyes of some league folk when he admitted to the press in the final stages of Shumaker's illness that Shumaker, while containing 22 per cent alcohol, was doing Shumaker good and had caused him to gain eight pounds. Again he blundered tactically, it was charged, when he removed Frank Wright, author of the present Indiana bone dry law and Shumaker's legislative floor leader, as a Sunday rally speaker for the league after Wright insisted on injecting the league issue into the Indianapolis mayoralty campaign last month.
Winters took the stand that the truth should be told about both and also that no league choice should be made in the mayoralty contest because neither the Republican candidate nor the Democrat had been classified as a wet.

Move 12 Patients to Safety

from Dunning Hospital Fire

Fire started in a rubbish heap at the bottom of a hot air shaft in a two story brick building at the Dunning state hospital for the insane last night. Attendants removed a dozen patients to another building. The origin of the blaze was not determined. The damage was estimated at \$100.

HYDE PARK COUPLE ROBBED.
Sam Simon, a Hyde Park shoe dealer, and his wife, were robbed last night in front of their home, 5439 Kimbark avenue, by three men who took a fur coat valued at \$250, three rings worth \$125, and \$5 cash.

FEDERAL JUDGE TIRED OF BEING DRY LAW GOAT

Wants County to Try
County Cases.

Fort Wayne, Ind., Dec. 17.—(Special.)—I'm tired of being made the goat of the county law enforcing officers, said Thomas W. Slick, district judge, in federal court session here today.
"My court has all the liquor cases it can take care of which are brought in the regular way by federal prohibition agents, without adding cases that should be tried in the state courts," Judge Slick added.
The court was hearing the case of Delbert Achmet, and his mother, Mrs. Loretta Achmet, who pleaded guilty on a liquor charge. They said they were arrested by deputy sheriffs on a charge of liquor possession in a slot machine raid on their filling station, four miles northeast of Fort Wayne. Five gallons of liquor were seized.
"Way was not this case tried in a county court?" asked Judge Slick. Attorney Ira M. Snouffer explained that the officers had no warrant to search for the liquor and that the evidence could have been suppressed in the county court under the state law. But the case could stand in a federal court without warrant, Snouffer explained. The defendants were each fined \$5.
Judge Slick also criticized attorneys who entered pleas of guilty or not guilty for absent defendants.
"I want the defendants here," he exclaimed. "Lawyers can't pass on the guilt of their clients."

Daughter Kidnaped for Revenge, Witness Says

Detroit, Mich., Dec. 17.—(Special.)—Mrs. Mary Milus today appealed to Detroit police for aid in seeking her daughter, Marie, 11, who she says she believes has been kidnaped by persons seeking revenge for testimony which Milus gave against five young men accused of holding up her husband and herself. The girl, missing since Sunday, left a note saying a man had come for her and was "making me go with him."

LADY FAIRHAVEN, U. S. BORN, GIVES BRITAIN HISTORIC RUNNYMEDE

(Copyright, 1929, by the New York Times.)
LONDON, Dec. 17.—Lady Fairhaven, an American born peeress, today bought for the British nation the historic meadow and the surrounding country at Runnymede where King John signed the Magna Charta in 1215. The gift, which was made in the names of Lady Fairhaven and her two sons, is intended not only to preserve the historic ground forever but to be a permanent memorial to her husband.
Lady Fairhaven was Clara Leland, daughter of the late Henry Huddleston Rogers, the elder, of New York. She married an English railroad engineer and philanthropist who had just been recommended for the peerage when he died early in 1923. His eldest son was given the title of Lord Fairhaven and his mother specially permitted to assume the rank of peeress.

BLAME MARKET IN SUICIDE OF INSURANCE MAN

Losses he incurred during the recent stock market crash are believed to have caused the suicide of Paul McCaslin, 43 years old, insurance broker, whose body was found in Lake Michigan off Calvary cemetery yesterday afternoon. McCaslin, who disappeared Monday, lived at 556 Michigan avenue, Evanston, and was connected with R. W. Hyman and company, Chicago agents for the Continental Casualty company, with offices at 175 West Jackson boulevard.
McCaslin's daughter, Mrs. James Jackson, 5048 North Lincoln street, told the police her father had lost more than \$50,000 in the market crash and that he had been moody and dependent ever since. T. C. Farrow, office manager, said McCaslin's accounts were in perfect order.

CAPTAINS TWO BURGLARS.
Patrolman George Farrow of the Stockyards district captured two Negro burglars, John F. Smith and George Wilson, recorded of robbery, Mo., as they left the dry goods store of Ladue Weaver, 6413 South Halsted street, with a box of stolen underwear.

LINGERIE—SECOND FLOOR

SAFFORD REPLIES TO AUTO MAKER'S SLAP AT DRY LAW

Cites Figures on Killings by Prohibition Men.

George H. Safford, superintendent of the Anti-Saloon league of Illinois, issued a statement yesterday in reply to the charges of Henry B. Joy, for president of the Packard Motor car company, that hypocrisy and selfishness rule the enforcement of prohibition. Mr. Joy made his declaration Monday in replying to the Detroit Republican.

"Mr. Joy should at least have substantiated some of his innumerable charges with some evidence," said Mr. Safford. "He mentions the resignation of a United States District judge because of unwillingness to inflict penalties upon men whom he regarded as having committed no real crime when they violated the prohibition law. We have never heard of any federal judge resigning for any such reason."

Old Manufacturer Quits.
Some time ago, the Manufacturers' board sent out a questionnaire to a large number of the great manufacturers and business leaders of the country, asking their opinion of the prohibition law. Of the large number who responded, 85 per cent expressed their hearty approval of the law.

"Mr. Joy may be a great automobile manufacturer, but we cheerfully go against his statement the word of a still greater one, Henry Ford, who said in a magazine article in September: 'It bores me comes back to the United States I am through with manufacturing.'"

"Mr. Joy says 'prohibition killings and the enforcement methods used by government officials are setting an example for kidnap men, murderers, and racketeers.' The Congressional Record of June 14, 1929, shows that of 46 persons killed, 55 were shooting at the federal officers, 16 others were killed in shooting with the officers, 10 others were better shots; 12 others made attempts upon the lives of the officers with other instruments than guns. Most of the others were endeavoring to escape."

Talk of Officers Slashed.
On the other hand, 55 of our federal prohibition officers, and several hundred state officers were killed while actually engaged in liquor raids. These officers were all innocent citizens and died in the line of duty just as such as did any American soldier who died upon the fields of France."

"There is no hypocrisy practiced by officers in drinking wet and wetting dry or vice versa that compares with the hypocrisy of the so-called 'old' and 'new' who insist on patronizing the bootlegger and serve outlaws from their tables. In so doing he commits smuggling, perjury, theft and murder."

"Was the Anti-Saloon league convicted in Detroit Jan. 15-19, we know the Mr. Joy will attend."

"A. C. Blanton of the legal department of the prohibition department in the United States yesterday spoke upon prohibition at the Engineers' club. He stated that 75 per cent of men arrested for violations of the prohibition law are natural criminals."

SAFETYMAN TAKES POISON.
Safetyman, 30 years old, 111 North Dearborn, an ex-serviceman, was reported to a local medicine yesterday at the Veterans' hospital in Washington as a victim of poisoning. Victim was found in a Washington restaurant.

IF I WERE PRESIDENT OF THE UNITED STATES

The Tribune invites witty, brief statements describing what you would do if you were President of the United States. The invitation is to Tribune Readers everywhere. Address Government Editor, The Tribune.

Editor: I would drive organized lobbies out of the capital. If it took the marines to do it, I would never use my power of veto on any measure passed honestly by the congress.

MILES J. WALSH, Elmwood Park.

Editor: If I were President, and seeking a solution which would restore confidence to the people of our nation, particularly to those who have lost money in the stock market, I would draft three of the world's master minds to aid me; namely, John J. Raskob, Alfred E. Smith, and the world's greatest news writer, Richard H. Little, of the world's greatest daily, THE CHICAGO TRIBUNE.

WILLIAM WALTER HARTIGAN.

Editor: As a world's fair requires the handling of millions of dollars in financing and involves our national reputation, I would withdraw the official endorsement given the plan to hold a world's fair in the city which is noted for its inability to handle properly its own city finances.

J. J. CLARKE, Duquesne, Ia.

Editor: I would extend credit to poor starving China to purchase fifty million bushels of wheat, thereby reducing the visible supply and helping the American farmer.

G. W. F.

Editor: I would discharge the government's hired gunmen and take the money and buy Christmas baskets for the poor instead of killing innocent women and children.

FRANK BROWN.

Editor: I would place a 10 per cent tax on yearly incomes of employers who will not employ men over 45 or women over 35. The tax would be used as pensions for living expenses for those not employed.

ANNA MERTS.

Editor: I would have all drug stores sell nothing but drugs. Where do they get the idea to sell everything they desire?

AUBURN.

Editor: I would try to induce the true law-abiding citizens of Chicago to adopt martial law to rid Chicago of its gangland. I believe the present Chicago police force consists of a bunch of beer-bellied hicks.

GEORGE AND PATT.

SOVIET MARRIAGE ILLEGAL, BRITISH JUSTICE RULES

(Chicago Tribune From Service.)

LONDON, Dec. 17.—Russian marriage is illegal in England. Justice Sir Maurice Hill ruled today when he was asked to decide whether the dissolution of marriage, through application by one of the two parties to the Russian consulate, constituted a legal divorce in England.

The question arose when Mrs. Samina Nicholson, a film actress, sued her husband, Gregory Nicholson, for separation. The pair were married at Moscow in 1924 according to Russian law, which provides only for the registration of the marriage and no further legal formalities. Later her husband went to the Russian consulate in Paris and obtained a divorce, also under the Soviet law, a simple process of asking for a certificate dissolving the marriage.

The English judge was asked to rule that such dissolution is not recognized by English law, but the justice went one step further back and ruled that even the marriage was not constituted a legal union under the English laws.

WAR SECRETARY ADVANCES ARMY MODERNIZATION

New Infantry Battalion Experiment Ordered.

(Chicago Tribune From Service.)
Washington, D. C., Dec. 17.—(Special.)—Modernization of the American army, through the introduction of greater fire power, mobility and capacity for sustained effort on the battle front into the infantry combat arm, was moved a step nearer fulfillment today when Secretary of War Patrick J. Hurley.

On the recommendation of Gen. Charles P. Summerall, chief of staff, the war secretary issued orders calling for the organization at once of an experimental infantry battalion with sufficient additional automatic weapons to double the fire power of the present infantry unit of this size.

More Automatic Weapons.

The new infantry battalion will give the army the most compact, powerful and independent combat unit in the history of the American military establishment. It will have 25 per cent more men than the present organization, twice as many automatic rifles, twice as many 30 caliber machine guns, and four 50 caliber machine guns for use against attacking aircraft and tanks, and introduce two 37 millimeter guns and two 75 millimeter mortars into the infantry unit. The mortars and 37 millimeter guns, formerly a part of the equipment of the old regimental howitzer company, are added to the armament of the battalion headquarters company.

The experimental battalion, composed of 1,178 men, will be armed with a total of 528 rifles, 108 automatic rifles, twenty-four 30 caliber machine guns, four 50 caliber machine guns, two 37 millimeter guns, one pounder, and two 75 millimeter mortars. The present organization has 544 rifles and twelve 30 caliber machine guns. The regimental howitzer company, which is armed with the 37 millimeter weapons and the 75 millimeter mortars, would be abolished if the new experimental organization were adopted as standard for the army.

World War Equipment Still Used.

The step taken by Secretary Hurley today marks probably the greatest stride the war department has taken toward bringing the army up to date. The army at present is equipped with world war equipment although its present infantry organization is the result of two year study made by a special board immediately after the war.

The new organization is designed to give the basic infantry combat unit greater fire power and more mobility without increasing its vulnerability.

Whether the new organization will be found satisfactory still is to be determined. It is certain, however, that charges of some kind will be made.

FLORIDA ROADS BEING IMPROVED TO LURE TOURISTS

Scenic Joys Offset Few Rough Spots.

By HAL FOUST.

(Chicago Tribune From Service.)

Tallahassee, Fla., Dec. 17.—(Special.)—Half of the story of winter motoring in Florida is told in recent advertisements—sunny skies, pavements shaded by palms and moss draped oaks, gentle breezes from blue seas, historical relics, good hotels.

The other half of the story is learned by driving Florida roads—narrow pavements with sand shoulders, through the introduction of curve markers, and fog.

The Tribune automobile covered 1,175 miles in the state before this writing. All that the advertisements averred has been verified, and the additional information was obtained from those who contemplate taking their cars to Florida.

Comprehensive Survey.

After a comprehensive survey, it can be stated that a Florida vacation is not complete without a motor tour. There have been many improvements in the highways and the attractions compensate many times for minor unpleasantnesses.

The Tribune car headed for Tampa from Lake City, Fla., near the Georgia line, the Dixie highway. The short route is 161 miles over Florida No. 3 and No. 5 highway through High Springs, Williston, Dunnellon, and Brooksville. The scenic route, with better pavement, is twenty-five miles farther, by way of Gainesville and Ocala. This correspondent, who took the short route, recommends the longer one, which avoids twenty-one miles of asphalt only about ten feet wide and too rough for comfort over twenty-five miles an hour.

Sixty Miles an Hour.

The Tamiami trail, the trail to Miami, is picked up at Tampa. Except for some narrow bridges, it is fair driving through Sarasota and Punta Gorda to Fort Myers, 134 miles over a variety of pavements. Through the 2,500-acre state that comprise the Everglades, the Tamiami has a sixty miles an hour pavement.

It's a scenic trip through the Everglades. There are many miles of bird sanctuary with flocks of white and blue herons as well as song birds and ducks.

Up the east coast of Florida is through the territory described by Jean Ribaut of the French Huguenots in 1565 as "the fairest, fruitfulest, and pleasantest of all the world." M. Ribaut wasn't selling subdivision lots but he was trying to get aid from his king in combatting the rival Spanish claims to the territory. Spain won and in 1565 St. Augustine, the oldest town in the United States, was founded by Pedro Menendez de Aviles.

From Miami to Palm Beach is 71 miles through coastal villages. Asphalt pavement is rough, narrow, and tortuous many miles of the distance.

Along Old Spanish Trail.

Daytona Beach is 193 miles north of Palm Beach, most of the distance affording fast driving with miles of beautiful road within view of the sea.

At Daytona Beach and Ormond is the

EDGE VISITS PARIS UNKNOWN'S TOMB WITHOUT POMP

(Chicago Tribune From Service.)

PARIS, Dec. 17.—Ambassador Walter R. Edge laid a wreath of red roses and violets on the tomb of the unknown soldier this afternoon, breaking all traditions by going unannounced and unphotographed. Accompanied only by his wife, the new ambassador walked into the shadow of the Arc de Triomphe at dusk and laid his wreath on the tomb.

Mr. Edge also paid a visit to the little museum near the summit of the arch. This is filled with war mementoes, the latest addition to which is a bust of the late Georges Clemenceau. The American envoy signed the so-called golden book, a privilege accorded only to presidents, generals and ambassadors.

Tomorrow afternoon at 5:30, accompanied by the entire embassy staff in full dress suits, Ambassador Edge will present his credentials to President Gaston Doumergue at the Elysee palace.

Mabel Normand Seriously Ill with Tuberculosis

Hollywood, Cal., Dec. 17.—(Special.)—According to Dr. Francis Potenger, at the Pasadena sanitarium where the actress is a patient, Mabel Normand is in a serious condition with tuberculosis. Both lungs are affected.

And so home...

TEN GAME CARD TO GREET PHELAN AT WASHINGTON

1930 Schedule Includes Coast's Best.

BY WALTER ECKERSALL.
(Chicago Tribune Press Service.)

Phelan, Cal., Dec. 17.—Jimmy Phelan, who will be in charge of football coaching at the University of Washington next fall, faces a heavy workload in his first year on the job. His team will engage in seven conference games in addition to three games with nonconference teams.

While most of the conference schools played five games with other members at the annual meeting in San Francisco yesterday, Earl Campbell, headmaster of Washington, decided to play seven conference games, including Stanford, Southern California and California, the three strongest in the league.

Although he will have good material at Washington it is doubtful if Phelan can establish his system effectively in his first year. Although the former headmaster coach uses the Notre Dame system, he has offensive and defensive formations of his own. Some have been copied by others but most of them will be foreign to coaches on the west.

Scholar for Fundamentals.
Phelan, who gave Purdue its first Western conference championship last fall, always has been a stickler for fundamentals and blocking. He has coached his squads in fundamentals and has taken his time to teach advanced tactics.

According to the Huskies' schedule, Washington will meet California at home and Stanford and Southern California on foreign grounds. Other conference teams Phelan's squad must face are Montana, Idaho, Oregon, and Washington State. It is the hardest schedule arranged by any conference team.

Scholar Stays at Corvallis.
News that Paul Schleier, coach of Oregon State, had signed a contract to coach for six more years at Corvallis was a surprise to those interested in Phelan's conference affairs. The coach had been offered him early last fall, according to his friends in Los Angeles. Schleier learned his football at St. Nebraska and afterward coached at Lombard. He was a leading candidate for the job at Northwestern, when Glenn Thistlethwaite decided to go to Wisconsin.

DETROIT BRADLEY ADDED TO IOWA'S 1930 GRID CARD

Des Moines, Ia., Dec. 17.—(Special.)—Dartmouth University and Bradley Polytechnic Institute were added today to the University of Iowa's 1930 football schedule.

Iowa will open the Hawkeye card book last 17 and Iowa will travel to Des Moines, Nov. 1. Other gridiron contests previously carded are with Marquette at Milwaukee Nov. 8, Penn State at Iowa City Nov. 15 and Nebraska at Iowa City Nov. 22.

The Hawkeyes search for non-conference opposition in other sports before a wrestling meet with Wisconsin at Iowa City Jan. 11, a basketball game with Luther college Jan. 21 and a swimming meet with Drake here either March 1 or Feb. 22, depending on the date to be arranged for a Hawkeye duel with Nebraska. Michigan State finding its schedule filled, has cancelled a basketball game with the Iowans tentatively carded for May 10.

MOON MULLINS—JUST ANOTHER WAY TO MEET A SWELL NUMBER

Shires Turns His Attention to the Stage

Art The Great Shires was perfectly willing to fight some more when aroused after a good solid ten hours of sleep shortly before noon yesterday.

Part of the slumber, no doubt, was caused by the catching he did in his losing battle with George Trafant at White City Monday night.

The Great Shires jumped out of bed under the impression that he still is a great fighter. But as his friends dropped in one by one and told him how terrible he performed against Trafant, the bad boy of the White Sox came to the conclusion that, perhaps, after all he wasn't such a great fighter.

During the day Shires signed a two weeks vaudeville contract. He sent

GENEVY

Illinois Law on Duck Limit Supersedes Federal Order

BY BOB BECKER.
Decatur, Ill.

Query—I wish you would advise me if the migratory bird law has been changed to allow duck hunting in this part of the country until Jan. 15. It generally has been closed Dec. 31.

Also advise if the bag limit has been changed to permit one to have thirty ducks in his possession at one time. It was my understanding that twenty-five was the limit and that only fifteen could be shot in one day.

Answer—At the beginning of the Illinois duck season we announced a change in the season dates of the duck law as follows: The season ends Jan. 7 instead of Dec. 31 and this change still holds good. Illinois gunners may continue to hunt both ducks and geese until sundown Jan. 7.

Judging from your question about bag limits you are confusing state and federal limits. Briefly the law is this: The state of Illinois prescribes a daily bag limit on ducks. The number is fifteen. The government has set up a bag limit of 25. In other words, if an Illinois hunter deliberately decides to ignore his state laws and kills 25 birds in a day he has exceeded his limit as prescribed by the state conservation department and is subject to arrest.

The Illinois law says that one may have 50 ducks in his possession or four days' bag limit. This state also permits a gunner to buy three shipping tags and ship 50 birds or less on each tag. This regulation is local and has nothing to do with government laws. Both state and federal wardens are active in the Illinois duck country, so you'd better get posted on these laws governing the hunting of migratory birds.

Sonnenberg, Krone Claim Santa Title

Mr. Gus Sonnenberg, the so-called heavyweight wrestling champion, arrived in town yesterday to defend his title against Joe Devite, St. Louis Italian, at the Coliseum tomorrow night.

Gus, out of college but a few years, apparently doesn't appreciate Promoter Doc Krope's efforts to keep the big boys of the mat game in beefsteaks and at the same time thrill thousands of wrestling spectators.

"Where does Krope get that Santa Claus stuff?" Gus asked soon after he arrived at Kid Howard's gymnasium.

"He ought to be saluting me as his Santa Claus. The doctor may be offering a ton of wrestling talent and other thrills, but he should write it

down in his little red book that your Uncle Gus is the fellow who is causing the record breaking advance sale of tickets.

"Gus draws 'em through the gate wherever he goes and the fans know I'll probably flatten this fellow Devite about as quick as you can say Jack Robinson. But they don't care about that and it is very evident they are going to venture out on a cold winter's night just to see the champion do his stuff."

While Promoter Krope and the champion were engaging in their little tiff the other beefy wrestlers who are to appear on the card were putting in their final training stunts. Joe Stecher looked ready to tie Pat McGill in several knots, and Wladek Zbynski, who admits he is no longer a juvenile declared Martin Plesinska will get away lucky if he comes out of the match with anything but a broken neck.

"Just think what a show it's going to be," said the enthusiastic Krone. "There is a Santa Claus after all and Doc Krope is the man in the long gray whiskers. And a few choice seats are still available."

Bruins Battle Rochester Pro Five Tonight

Rochester will open a two game series tonight with the Chicago Bruins at the Chicago Stadium.

An added feature will be a game between the Taylor Trunks girls and the Christ Church Arrows boys five. Failing to find strong opposition among girls' teams, the Trunks have decided to enter the boys' field for conquests.

Rochester is conceded an edge over the Bruins because of the fact that its center, Tiny Hearn, 6 feet 9 inches tall, hasn't been outjumped at center since he started playing professional basketball.

The remainder of the Rochester five is made up of veterans. Chismadia was a member of the New York Celtics for a time and is conceded to be one of the most improved players in the game. Artus is a veteran from the Philadelphia Warriors. Barry, one of the best dribblers in the game, has made several appearances here. Rabin has been with the Rochester five for several seasons.

The performance of the Bruins of late has been greatly improved over their showing earlier in the season.

DATE FOR HELEN WILLS' MARRIAGE NEARS, REPORT

San Francisco, Cal., Dec. 17.—(AP)—The date of Miss Helen Wills' wedding to Fred Moody, young San Francisco broker, became a subject of intense speculation today. It is going to be soon, it was learned.

Northwestern Swimmers Invade C. A. A. Tank Tonight

Four former Northwestern university swimming team captains are on the C. A. A. tank tonight which will meet the Purple splashers in the 50 yard sprint championship, and former's pool tonight. Following the swimming meet, the water polo teams of the two clubs are scheduled to meet. The C. A. A. is one of the strongest teams in the country and will give the Purple team a spirited fight in all events. Among the stars on the club are the following men, who were captains at Northwestern: Ralph Broyer, Dick Howell, Paul Corbett, and Harry Daniels.

Together with these are a number of other stars, including Bryant, holder of the national intercollegiate 50 yard sprint championship, and Schott, former Williams college champion in the breast stroke.

Capt. Al Schwartz, Purple leader, is expected to have things pretty much his own way in the crawl events. Schwartz holds all of the national intercollegiate records in the free style. Other Purple aces include Dick Hinch, back stroke; Don Peterson, breast stroke; an Bill Corvode and Mark Wicks, crawl.

Loyola Awards Grid Letters to 23 Players

Loyola awarded twenty-three letters to members of the 1929 football team and thirty-eight numerals to freshmen at the annual football banquet last night.

Jimmy Phelan, newly appointed coach at the University of Washington, and Coach A. A. Stagg of Chicago were among the guests.

The varsity men to secure letters are Capt. Cornelius Collins, Red Moran, Frank Lutsenkirchen, Red Walsh, Chris Poppelreiter, Ray Nolan, Larry Paul, Ted Connelly, Marty Griffin, Bob Burke, Tommy Flynn, Frank Murphy, Fred Sextre, William McNeill, George Weimer, Mike Wassco, Jerome Kosloski, Leslie Molloy, Willie Durkin, John Smith, Tom Howe.

land, Jerry Huppert, and Courtney Ryan.

Loyola's basketball team will be after its 15th consecutive victory tonight when they meet the Arkansas State quintet at Loyola gym.

The week of practice following their opener against Duquesne last week has enabled Coach Sachs to improve the Ramblers' passing game, which showed up rather ragged in spots.

The same combination that started last week will open again tonight. The guard positions will be taken by Sophomores Schuhman and Butsen, whose fast floor game, combined with their ability to sink baskets, has earned them regular berths. Tommy Flynn, another sophomore who showed up well in the Duquesne game, will play a forward position with Mike Wassco. Capt. Murphy will be at center.

INSUL COMPANY VOTES 6 PER CENT STOCK DIVIDEND

Investment Firm Gains on Chicago Exchange.

BY THOMAS FURLONG.

Carrying out the plan of paying dividends in stock rather than in cash recently adopted by several of the investment public service corporations, directors of Insul Utility Investments yesterday voted a 6 per cent stock payment on common.

The dividend will be paid out of 1929 earnings and is payable in equal quarterly installments during 1930 on Jan. 15, April 15, July 15, and Oct. 15 to stockholders of record fifteen days prior to the payment date.

Insul Utility Investments has been unusually active on the Chicago exchange recently and has advanced 10 points during the last few days to \$7, where it closed yesterday.

It was stated that it is the present intention of directors to continue to pay dividends in common stock the rate of six shares for every 100 shares outstanding. In order to avoid confusion the 1929 and 1930 dividends, the latter payments will be distributed quarterly, but on different dates during next year.

Samuel Insull, who has been president of the corporation since its organization in December, 1924, was elected chairman, an office provided for in the bylaws, but up to this time unoccupied. Samuel Insull Jr., vice president, was chosen president of the company.

Price movements on the Chicago board were extremely narrow yesterday, and trading was dull, except for a few utility issues. Total sales barely exceeded 100,000 shares.

Morgan Lithograph was one of the few stocks to make headway against the general apathy in the market. The stock closed at 12 1/2 with a gain of 1 1/2. It is understood that the company has signed a five-year contract with the Paramount-Famous-Lasky corporation.

Automotive stocks were soft, with the two leaders, Bendix Aviation and Borg-Warner, finishing fractionally lower. It was reported definitely that Bendix is carrying on negotiations with the Consolidated Instrument company looking toward an agreement on a basis for the exchange of stock by which the latter company would be merged with Bendix.

Radio stocks received little attention in the trading. Grigsby-Grimow, recently one of the leaders in the point of sales, was unchanged on a turnover of about 9,000 shares. Zenith went to 8 during the morning, but closed unchanged slightly above that figure.

Meeting after the close of the market, governors of the exchange approved listing of new securities having a total market value of \$120,000,000. Five of the issues admitted are to be traded in on notice and are the first to be listed since Nov. 21.

Among the new issues to be listed is 10,000,000 shares of Wisconsin Bank Shares corporation common stock of which \$1,727,550 will be presently outstanding. The stock has a par value of \$10.

Other new listings include: Central Cold Storage company, 100,000 shares of \$10 par value common stock; Agricultural Bank and Credit corporation, 125,000 shares of \$10 par value common stock; and \$10 par value 7 per cent cumulative preferred; Southern Department Stores, 5 year 6 per cent bonds, series A, authorized, to be issued, and subject to redemption at \$100,000,000 aggregate principal amount. An additional listing was 20,000 shares of no par value class A stock of the Utilities Power and Light corporation.

News and Gossip of Stock Marts

Will Meet Today.
Directors of the Granby Consolidated Copper Mining, Smelting and Power company are scheduled to meet for dividend action today. It is understood the regular quarterly payment of \$3 a share now due will be declared with earnings showing such requirements covered by a satisfactory margin.

Favor Split-Up.
The split-up of Allis Chalmers is looked upon with favor because earnings for the current year are expected to establish another new high record for the company. It is estimated that net income for 1929 will be better than \$4,000,000, or more than \$4 a share on the outstanding 1,144,000 shares of no par common.

Runs Close Second.
Missouri-Kansas-Texas has run a close second in the race for leadership of the nondividend paying rally during the last week or ten days. KAT has attracted a good deal of speculative attention because of its ability to absorb selling during weak periods.

See Earnings Margin.
Earnings of Best & Co. will show another substantial margin above requirements for the fiscal year ended Jan. 31, 1930, according to reports which have already been published. In the last fiscal year Best reported net income of \$1,001,000 or \$1.51 a share on the common before the stock split, as compared with 1928, or \$1.25 in the preceding year.

Makes Quick Change.
Consolidated Inc. has always been attached to Chicago Great Western. For many years this road was ranked upon with scores as a deficit after deficit piled up, putting the preferred stock more in arrears with every regular monthly period. Since the end of 1928, however, a decided change for the better occurred in Great Western's general position. A new group bought control and a short time ago the Van Reenen group took active charge of operations. As a result income for the current year will be about the best in the past decade, with net approximating \$3 a share on the common stock.

INDEPENDENTS BANKED IN HUGE STEEL MERGER

New Republic Co. to Rank Third.

By O. A. MATHER.

A third great steel consolidation among four independent eastern companies with total assets exceeding \$100,000,000, was announced yesterday. The Republic Iron and Steel Co., the Central Alloy Steel, the Donnan Steel, and the Bourne-Fuller company met in Cleveland, O., and approved plans for a merger that will result in a new company to be known as the Republic Steel Corp.

The Republic Steel company will be the largest of the new consolidation. It will rank next to the United States Steel and Bethlehem Steel corporations. Republic Steel will have an estimated capacity of nearly 5,000,000 tons of steel, while United States has a capacity of nearly 25,000,000 tons and Bethlehem Steel has capacity of nearly 8,000,000 tons.

The new merger will take in a number of plants extending from the south seaboard to Chicago and to Birmingham, Ala. The Republic Iron and Steel company, with a capacity of 5,000,000 tons, has plants at Gary, Ind.; Warren, O.; Birmingham, Ala.; Muncie, Ind.; and Mobile, Ala. It also has two subsidiaries, the Republic Tube, Inc. (with plants at Portland and Elyria, O.; Hartford, Conn.; Brooklyn, N. Y.; and Hamilton, N. J.) and the Union Drawn Steel company, with plants at Milwaukee, Wis.; Detroit, Mich.; and Beaver Falls, Pa.

Other capacities.

The Central Alloy Steel company, with a capacity of 1,542,000 tons, has plants at Canton and Massillon, O., and is subsidiary, the Interstate Iron and Steel company, has a plant at Chicago with a capacity of 300,000 tons. The Donnan Steel company, which recently closed the Withrow Steel company, has a plant at Buffalo. The Bourne-Fuller company is a Canadian concern.

The merger is largely the result of

St. Lawrence Waterway Gets Power Interest Support

By SCRUTATOR.

Talk about the St. Lawrence deep waterway as a navigation project goes on constantly; but it is as a hydro-electric power plan that it is getting all the effective support it has so far had.

All that has actually been done so far, aside from examinations of the feasibility of making it possible to run the biggest lake ships directly to the sea, has been done in Canada. The latest and most direct accomplishment has been the beginning of the construction of the Beauharnois canal, destined to furnish a half million horsepower for consumption in Quebec and Ontario.

This canal, leaving the river at Lake St. Francis and rejoining it at Lake St. Louis, will be about fourteen miles long. The drop of more than eighty feet in the waters of the St. Lawrence, now largely unused as it passes over a series of rapids, is to be concentrated at a power dam at the Lake St. Louis end.

Will Use One-Fourth.

Only one-fourth of the river flow will be diverted into the canal at first, according to announcement. If all of it were taken, the Beauharnois bankers assert that two million horsepower could be generated in the water turbines.

The claim is advanced that when the government requires it, and it installs the necessary locks, half of the difficult stretches of the shipway lying wholly in Canada will have been completed. There remains in the dominion alone only the Lachine rapids to be gotten around. Here, too, power is available for the neighboring city of Montreal. It is only along the international boundary section of the St. Lawrence that the United States is expected to share the expense of the shipway development—and to get half of the power.

Estimates, seemingly authoritative, show that Canada is to receive about four times as much power as the United States from the whole development. Canada's share would be in all, when the fullest use is made of the hydro-electric possibilities, about four million horsepower, which is two-thirds as much as all the developed water power for electricity that country had at the end of 1928.

Objectors to the spending for the shipway construction have pointed out that, in view of the tremendous importation of hydro power to eastern Canada and its lesser relative importance to the United States, it would be unwise to give American aid in the navigation plan.

Moulton, in his report opposing the

whole ship channel, found that there was no close market for the hundreds of thousands of horsepower due the United States in northern New York, and that it was cheaper for New York City and Boston to get their power from steam turbines, when transmission costs were considered.

With the Canadians, on the other hand, electricity from water power is almost a fetish. Their laws prohibit the export of power to the United States. The company developing Beauharnois estimates that for every \$100 spent in developing its power, \$1,000 will be invested in Canadian industrial plants.

Following out this line of reasoning, thirty millions put into the canal and the power house will attract 300 millions of industrial investment. Further, they give figures to show that 1,600 horsepower gives employment to 150 workers, and that the project means an increase of 55,000 workers, who, with their families, will mean a total of 380,000 more Canadians.

Doubts Reasonings.

If these reasonings are correct, and there is ample doubt about the method, Canada would gain three million people by developing all the horsepower in the St. Lawrence. Across the line such arguments have weight.

It is noteworthy that Montreal, which for a long time was skeptical if not actually hostile to the shipway, has come around and many prominent citizens now are actively in favor of it. Montreal will get a large share of the Beauharnois power.

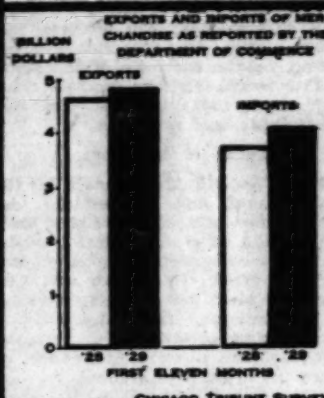

A natural course of events, if Canada continues to find their water power so valuable, would be the development of the St. Lawrence's whole power possibilities. Then, if the United States held aloof, the navigation feature—with 27 foot depth and 600 foot locks—possibly would be constructed, as the Welland canal was built, to keep western Canadians satisfied with their eastern brethren.

SLOAN ESTIMATES AUTO REPLACEMENTS NECESSARY IN 1930

[Chicago Tribune Press Service.] New York, Dec. 17.—The year 1930 will bring forward demand for 3,390,000 vehicles as replacement for automobiles now in use, Alfred P. Sloan Jr., president of General Motors corporation, predicted today. He also said that the record breaking replacement performance of 1929 would seem commonplace in years to come.

There is nothing alarming in that production of automobiles slackened more than normally during the last quarter of 1929, following the record breaking output established in the first half of the year, he said.

Slowing down of production during the last few months has been due in no small measure to an influence quite apart from the trend of retail sales, namely, the growing tendency on the part of automobile manufacturers to revise their models and re-align their production facilities toward the close of the year, instead of in the fall or summer, Mr. Sloan said.

Automobile production in the United States for November was today estimated by the commerce department as amounting to 217,441 vehicles, composed of 169,509 passenger cars and 46,932 trucks. The total compared with a gross output of 257,140 cars and trucks in November last year and with 380,611 cars and trucks in October of the present year.

Philip R. Clarke Is New Central Trust President

Chicago has a new bank president. He is Philip R. Clarke, who yesterday was promoted from executive vice president to president of the Central Trust Company of Illinois, one of the big downtown institutions.

At the same time the directors also elevated Joseph E. Otis from the presidency to chairman and created a new post of honorary chairman for Gen. Charles G. Dawes, who has been chairman for a number of years, but whose bank career has been interrupted by his service as Vice President of the United States and now as American ambassador to England. Eugene V. R. Thayer remains as chairman of the executive committee.

In making this realignment of executive officers of the bank, the directors sought to centralize the executive responsibility for all of the banking and investment departments under one office. Mr. Clarke was recently elected president of the Central Illinois Securities company, the investment subsidiary of the bank. He will retain these offices.

Concentrates Activities.

"Mr. Clarke's elevation to the presidency concentrates the administration of all of the activities of the Central Trust company and its affiliate organizations in one individual," according to a statement issued by the directors.

"This insures the most intelligent and efficient relationship between these allied institutions. In becoming chairman Mr. Otis will continue his activities with greater responsibilities. Inasmuch as he will now handle policies rather than detail, it is understood that the withdrawal of Gen. Dawes as active chairman will in no way change his interest in the affairs of the bank."

Mr. Clarke was one of the founders of the Federal Securities corporation, which was started just after the war as an investment banking house by several Chicagoans who had guided the Liberty bond campaigns. Previously he had been president of the Hinsdale State bank. The Federal Securities company was absorbed by the Central Trust company last June. Mr. Clarke took a brief vacation from business, but a few weeks ago was made executive vice president of the bank to succeed James G. Alexander, who resigned.

Chicago also is to have a new bank soon. A permit to organize the Mer-

chandise Bank and Trust company, with authorized capital stock, surplus and reserve of \$1,250,000 was granted yesterday by Oscar Nelson, state auditor.

New Bank in Merchandise Mart. The bank will be located in the new Merchandise Mart at Wells street and the river. Raymond L. Redheffer will be president and Sterling D. Cramer will be chairman. The directors will include Stanley Field, George B. Everett, Fred W. Sargent, Milton S. Floeshelm, George W. Childs, and Messrs. Redheffer and Cramer. The bank will open in May on completion of the building.

Several Chicago banks declared extra dividends yesterday, as follows: Chicago City Bank and Trust, 3 per cent; Mercantile Trust and Savings, 2 1/2 per cent; Beverly State Savings, 2 per cent; Market State Traders, 1 per cent; Berwyn Trust and Savings, 2 per cent; Northern Trust, 2 per cent; Jackson Park National, 1 per cent.

SAN FRANCISCO WATER ISSUE IS FINALLY SOLD

[Chicago Tribune Press Service.] New York, Dec. 17.—After one year of unsuccessful attempts to float a \$41,000,000 4 1/2 per cent Spring Valley water system bond issue at par, the city of San Francisco today announced sale of the bonds to a nationwide banking system.

The purchasing group includes the National City company, First National bank of New York, Continental Illinois company, Inc., and Harris, Forbes & Co. The city will use the \$41,000,000 to buy the properties of the Spring Valley water system, \$11,000,000 being apportioned to retire the company's bonds and \$30,000,000 going to the stockholders.

Approve \$71,836,050 Stock Issue of Pennsylvania R. R.

Washington, D. C., Dec. 17.—(AP) Approval of the Pennsylvania railroad's issuance of \$71,836,050 of stock, the largest single issue of railroad stocks proposed this year, for the payment of maturing bond issues and the financing of improvements to its system, was given today by the Interstate commerce commission.

SUMMARY OF THE DAY'S MARKETS

CHICAGO.

BY FRED HARVEY.

(New York stock list page 31.) [Chicago Tribune Press Service.] New York, Dec. 17.—Stocks dropped through another listless day. The volume of transactions diminishing to 2,427,300, a drop of some 57,000 from yesterday's new seasonal low. It was the dulllest trading affair seen on the exchange in many months.

What few professional traders the lure of Florida and other warm climates, the boredom of the inevitable holiday lull and other diverting Yuletide influences have left were on the buying side for a change today, with the result that the more important price movements were toward better levels. The leaders were up one to five points at the close.

Little Outside Interest. News of a character calculated to stimulate speculative interest was utterly lacking and outside interest in the market was negligible.

Money was firm in tone, but with the day to day rate remaining unchanged at 4 1/2 per cent primarily for the reason that demand for new accommodation was at a standstill. The supply was not overabundant and the pickup in demand for federal funds indicated some member banks were disposed to build up reserves which apparently had been allowed to run off.

About the only group movement of

[Continued on page 30, column 5.]

Why burden a busy man
with your family's
FINANCIAL troubles?

SHOULD you ask your best friend, a relative, or any individual—professional or otherwise—to undertake the responsible task of acting as executor for your estate?

Consider the complicated inheritance and estate taxes; also the care which must be given to your investments. These problems may require a thorough knowledge of law, accounting, finance, real estate, insurance, and perhaps even the ability to manage or liquidate your business interests.

Consider also the possible absence of your executor when most needed, which might result in substantial loss to your estate. Furthermore, you have no assur-

ance that the individual executor and trustee you select will outlive the term of his trust.

A trust company, on the other hand, is always accessible. It cannot fall sick or die or be away when critical matters affecting your estate require attention. It is impartial, and cannot be unduly influenced by individual beneficiaries. It will carry out the provisions of your Will exactly as you specify.

It has the skill, knowledge and discretion accumulated from many years of successful experience. Its fees are no greater, in fact are usually less, than those allowed an individual executor and trustee.

The story of the service we can render in these and other capacities is told in our new booklet, "MY ESTATE—How Shall It Be Administered?" We shall gladly send you a copy on request.

PLAN 5 STORY HOTEL AT 18TH AND WABASH AVE.

Site Is Acquired Through
99 Year Lease.

BY AL CHASE.

For the first time in nearly three-quarters of a century the southeast corner of Wabash avenue and East 18th street is in hands other than those of the Sturges family. The heirs of Buckingham Sturges yesterday leased the property for ninety-nine years to Benjamin F. Mayer, a real estate dealer, who contemplates erecting a five story hotel. The 1923 World's Fair was the main factor which influenced Mr. Mayer in acquiring this site. The new hotel will be but a few blocks from one of the entrances to the fair.

The lease is dated Jan. 1, 1930, and runs until Dec. 31, 2027. The rental for the first four years will total \$40,000; for the next eight years the total will be \$90,000. The annual rental for the next ten years will be equal to 5 per cent of the valuation of the land.

Term Rental \$1,500,000.
The property will be reappraised in 1940, 1950, 1970, 1990, and in 2010. According to the terms of the lease, however, the rent is not to be in excess of \$15,000 annually. The term rental will be in the neighborhood of \$1,500,000. The lessee has an option to purchase at any time for \$300,000.

The property fronts 171 feet on 18th street and 51 feet on Wabash avenue. It is improved with an old three story brick building, the upper floors of which are occupied by the Calvert hotel. In the rear is an old frame residence, for many years the home of Buckingham Sturges at a time when the south side Gold Coast extended to that point.

Wreckers to Start Shortly.
Wreckers will start shortly on the present improvements within two or three months. No architect for the new hotel has yet been engaged. Mr. Mayer has not yet definitely decided on the exact height or number of rooms, but the building probably will be five stories and, of course, will be of fireproof construction.

The ninety-nine year lease negotiated yesterday was made subject to a short term lease made by Susan B. Sturges to James H. Mayer, dated Nov. 1, 1910, and expiring Dec. 31, 1930. The late Buckingham Sturges was one of Chicago's earliest settlers. The lessors in yesterday's deal were Kate B. Lily B. and Benton Sturges, all

REED & PRINCE PURCHASE PLANT ON IRON STREET

The Reed & Prince Manufacturing company of Worcester, Mass., has purchased 15,000 square feet of land and a two story building at 3635 Iron street from the trustees of the Central Manufacturing district for an undisclosed consideration. The purchaser will move its activities from 121 North Jefferson street. Articles manufactured by Reed & Prince include screws, rivets, bolts, nuts, bolts, etc. J. V. Banks is district manager. E. Orris Hart and John F. Jones were brokers.

Stewart Fox Is New Head of Equitable Trust Co.

(Chicago Tribune Press Service.)
New York, Dec. 17.—Winthrop W. Aldrich, brother-in-law of John D. Rockefeller Jr., and leader of the Rockefeller forces in their recent fight to oust Col. Robert W. Stewart from his position as chairman of the Standard Oil Company of Indiana, today was elected president of the Equitable Trust company of New York, fourth largest bank in the city. Mr. Aldrich succeeds Charles A. Austin, who died suddenly last Friday from a heart attack.

Rail Investment Trust Discloses Financial Status

(Chicago Tribune Press Service.)
New York, Dec. 17.—International Carriers, Ltd., an investment trust specializing in railroad stocks, disclosed today in its first financial statement since its organization on Aug. 5 that the liquidating value of its shares on Dec. 9 was \$20.01 each, compared with an original paid in price of \$25 a share.

Oakland (Cal.) Bank in Merger with Transamerica

San Francisco, Dec. 17.—(AP)—Consolidation of the Oakland bank and its branches with the Transamerica group of banks in California was announced today by the Bank of California.

FILE BANKRUPTCY PETITION AGAINST FURNITURE FIRM

An involuntary petition in bankruptcy was filed yesterday against the Grand Rapids Furniture company, operating five Chicago retail stores, in the United States District court.

Amounts claimed due the petitioning creditors, according to Jesse A. Joseph of the law firm of Joseph & Burr, are \$4,389.15 to the Crown Name Plate and Manufacturing company; \$388.51 to the Steel Sales corporation; and \$3,672 to the Klammer Furniture company.

The company, which is solely a Chicago concern, operates stores at 2251 South La Salle street, 229 South Wabash avenue, 6614 South Halsted street, 2412 West North avenue, and 3138 West Roosevelt road. Edward Schwartz is president of the company. Daniel Schwartz, secretary, and Morris Schwartz, treasurer.

Permits Fifth Trunk Line Hearing Despite Protests

Washington, D. C., Dec. 17.—(AP)—Over the protest of existing trunk line railroads, the New York, Pittsburgh and Chicago company was permitted today to go forward in an interstate commerce commission hearing with the presentation of evidence relating to its fifth trunk line project involving construction of a new railroad from east to west across Pennsylvania.

Advances Proposal.

The proposal of the Baltimore and Ohio railroad to acquire the Buffalo and Susquehanna railroad for its proposed merged system was shown today to have advanced substantially in an announcement that practically all B. & O. preferred and common stock had been deposited under a purchase offer made by the B. & O. The Girard Trust company of Philadelphia was depository under the offer, which called for the payment of \$40 a share of the B. & O. for both classes of stock.

The Girard Trust company announced in October that 70 per cent of B. & O. preferred and 56 per cent of its common had been deposited under the offer. It was then announced that the time for deposit had been extended to Dec. 14. The offer was made conditional on the deposit of more than two-thirds of each class of stock and the plan becomes void if it is not approved by the interstate commerce commission by June 15.

Stockholders Decide to Close Laconia Car Co.

Boston, Mass., Dec. 17.—(AP)—Stockholders of the Laconia Car company of Laconia, N. H., today voted to liquidate the company's assets as recommended in the annual report of the board of directors, which outlined a two year struggle for business which resulted in a net loss of \$113,747 during the year ending last Sept. 30.

Tennessee to Float Bond Issue for Roads Program

(Chicago Tribune Press Service.)
New York, Dec. 17.—The state of Tennessee has decided on a \$10,000,000 highway and public improvement program, according to advice received here today. The governor has signed a bill passed at a special session of the legislature authorizing the issuance of bonds in this amount to be sold at not exceeding 5 1/2%.

The maturities on the \$10,000,000 of highway and improvement bonds authorized in 1925 will be extended five years in order to provide uniformity of maturities. The state will also be in the market with an issue of \$300,000 state university notes with maturities to mature at the interest rate of not to exceed 5 1/2 per cent. No date has been set for the offering of any of the bonds.

Additional Issue

Union Electric Light and Power Company (Missouri)
General Mortgage Gold Bonds, 5%, Series B

Dated August 1, 1927
Principal and interest payable in New York. Interest payable February 1 and August 1, without deduction for Federal income tax not exceeding 2% per annum. Coupon bonds in denomination of \$1,000, negotiable as to principal only, and fully registered bonds in denomination of \$5,000. Redeemable at any time, as a whole, or in part by lot, on 30 days' notice, to and including July 31, 1930 at 104% and interest, with the redemption price reduced 1/2 of 1% on each August 1 thereafter. Bankers Trust Company, New York, and Samuel A. Mitchell, Trustees

Legal investment, in the opinion of counsel, for life insurance companies in New York, Pennsylvania, New Jersey, Massachusetts and Connecticut

The following information has been summarized by Mr. Louis H. Egan, President of Union Electric Light and Power Company, from his letter dated December 17, 1929, and is subject to the more complete information contained therein:

BUSINESS
Union Electric Light and Power Company does substantially all the central station electric light and power business in the City of St. Louis and surrounding districts in Missouri. The company's subsidiaries furnish electric light and power in East St. Louis and Alton, Ill., and adjacent territory, and throughout a large territory bordering on the Mississippi River and extending north to Burlington, Iowa. The total territory served by the company and its subsidiaries has an area of over 2,700 square miles and a population estimated to exceed 1,300,000, and includes more than one-third of the total population of the State of Missouri.

PURPOSE OF ISSUE.
These Series B bonds are being issued to reimburse the treasury of the company for expenditures made for additions and extensions to its properties.

EARNINGS
Results of operations of the company for the five years ended December 31, 1928 and for the twelve months ended September 30, 1929 have been as follows:

| Year ended Dec. 31 | Income from operations | Other income | Net earnings after depreciation and depletion, but before interest | Total interest on funded debt |
|--------------------------------|------------------------|--------------|--|-------------------------------|
| 1924 | \$15,056,414 | \$ 680,459 | \$4,389,377 | \$1,025,816 |
| 1925 | 15,915,023 | 759,721 | 4,434,216 | 1,363,971 |
| 1926 | 17,434,897 | 1,150,744 | 5,008,429 | 1,388,429 |
| 1927 | 16,573,413 | 1,133,483 | 5,681,549 | 1,411,495 |
| 1928 | 19,588,534 | 1,728,537 | 7,697,074 | 1,631,157 |
| 12 months ended Sept. 30, 1929 | 20,567,172 | 2,342,901 | 8,725,904 | 1,629,534 |

Net earnings before interest for the five years ended December 31, 1928, as shown above, averaged \$5,742,129 per annum or more than 4 1/2 times average annual interest on funded debt during the period. Such earnings for the twelve months ended September 30, 1929 were over 5 1/2 times interest on funded debt during that period, and more than 3 1/2 times the annual interest requirement on all funded debt to be outstanding in the hands of the public upon issuance of these Series B bonds.

Other income of \$2,342,901 for the twelve months ended September 30, 1929, as shown above, includes \$1,281,882 received as dividends on common stocks of subsidiaries, the total common stock dividend distribution of subsidiaries representing approximately 43% of the earnings available for such distribution. During such twelve months' period total net earnings of subsidiaries after rentals, all taxes and depreciation but before interest amounted to more than 3 times total interest on funded debt of subsidiaries.

During the five years ended December 31, 1928 appropriations from earnings for depreciation reserves, in addition to substantial expenditures for maintenance, totaled \$7,991,716; during the twelve months ended September 30, 1929 such appropriations amounted to \$1,560,353.

SECURITY
The General Mortgage, under which \$4,975,000 Series A 5% bonds and \$10,000,000 Series B bonds are now outstanding and under which these additional Series B bonds are to be issued, will, by payment at maturity of underlying bonds, become a first lien on the company's entire mortgaged property by May 1, 1933, subject to \$416,958 of serial real estate notes secured by direct first mortgage lien on the company's office building in St. Louis, and subject to mortgages which may exist, at the time of acquisition, on property hereafter acquired.

The Series B bonds are a direct obligation of the company and are secured, in the opinion of counsel, together with the Series A bonds, by direct mortgage lien on the entire fixed property of the company and by the deposit under the General Mortgage of \$8,808,000 principal amount of the company's Refunding and Extension Mortgage 25-Year Gold Bonds, 5%. The total principal amount of underlying bonds outstanding in the hands of the public is \$17,642,958, consisting of the \$416,958 of real estate notes above mentioned, \$6,200,000 of First Mortgage 5% 30-Year Gold Bonds and \$11,025,000 of the Refunding and Extension Mortgage bonds.

Additional bonds may be issued under the General Mortgage, subject to restrictions provided therein.

CONTROL
Union Electric Light and Power Company is an important part of the North American System and is under the control of The North American Company.

We offer these bonds for delivery if, when and as issued and accepted by us, subject to authorization by the Public Service Commission of the State of Missouri and to the approval of legal proceedings by counsel. It is expected that delivery will be made on or about December 30, 1929, in the form of temporary bonds, or interim receipts of Dillon, Read & Co.

McGraw Electric Company

The Board of Directors of the McGraw Electric Company has declared a regular quarterly dividend of \$0.50 (50c) per share on the common stock, payable January 4, 1930, to stockholders of record as of December 15, 1929. The stock transfer books will be closed on December 15, 1929.

JUDSON LARGE, Secy.

TEN EXTRAS ARE ADDED TO LIST OF DIVIDENDS

(Chicago Tribune Press Service.)
New York, Dec. 17.—The dividend stream flowed with zest today with a large number of extras in addition to a number of initial payments.
The new stock of the Firestone Tire and Rubber company was placed on a \$1.00 annual basis with the declaration of a quarterly dividend of 40 cents. This is equal to \$4 a share on the old common stock of the corporation.
The list of extra dividends included: General Industrial and Bankshares, 5 cents on class A stock; Philadelphia company, 75 cents; Crucible Steel, 35 cents in stock; Federated Metals, 35 cents; Travelers Insurance, 2 per cent; Alstons, 1; Prudential, 1 1/2 cents; Central Hanover Bank and Trust, 1; Howe Sound, 50 cents.
Stock dividends valued at \$9,705,610 at the closing prices of the stocks were declared today by the Borden company and the Newmont Mining corporation. The Borden company present for stockholders was a 3 per cent dividend, while that of the mining company was for 5 per cent.
The Borden dividend will call for the issuance of 11,301 additional shares and at the closing price today of 71 1/2 on the New York stock exchange is equivalent to \$804,421.50. The mining company dividend will call for the allotment of 15,258.5 additional shares of stock valued at the closing price of \$111 on the New York stock exchange today at \$1,754,739.

FINANCIAL NOTES

The First National corporation of Buenos Aires, jointly with Harris Trust and Savings Bank and Stone & Webster & Hlodgett, Inc., will offer today new issue of \$5,000,000 Province of Buenos Aires [Argentina Republic] 6 1/2 per cent external sinking fund gold bonds of 1952, dated Dec. 1, 1929, and due Dec. 1, 1952. The issue is priced at 95 and interest to yield over 6 1/2 per cent to maturity.

↕

The Harris Trust and Savings Bank and A. C. Allen & Co. are offering \$1,000,000 Cumberland County Power and Light company first mortgage 5 per cent gold bonds, due Dec. 1, 1959, at 99 and interest.

Melvin A. Traylor, president of the First National bank and the First Union Trust and Savings bank, will be given a welcome home dinner by more than 600 employes of both banks in the Palmer house this evening. Mr. Traylor recently returned from Europe where he was one of the American delegates appointed by President Hoover to participate in the organization of the new world bank, the Bank of International Settlements.

American Trustee Share corporation will issue rights on Dec. 31 entitling holders of its diversified trustee shares, series C, to subscribe to additional shares at a discount of 50 cents per share from the market price to the extent of dividend coupons surrendered.

An additional issue of \$15,000,000 general mortgage 5 per cent series "B" bonds of the Union Electric Light and Power company of Missouri will be offered today by a syndicate.

headed by Dillon, Read & Co. at 10
and interest.

SUGAR REFINING HEAD QUIT.
W. S. Fardonner, president of the Savan
nah Sugar Refining corporation, has re
tired because of ill health.

TELL ME

WHAT TO DO

He had been thinking of his family—his property—his will. There were many intimate matters on which he needed financial counsel.

He did not hesitate to come to this Bank, because he had formed permanent friendships and sought counsel from the same officers year after year.

We invite you also to enjoy the confidential personal service of our officers.

WHEAT MARKET FIRM; PRICES GAIN OVER CENT

Argentine Gold Situation
Creates Uncertainty.

BY CHARLES MICHAELS.

Except for a brief period at the opening yesterday, the wheat market showed a decidedly strong undertone. However, with eastern connections and local professionals were again active, buyers and prices advanced 1/4¢ to 1/2¢ from the inside figures and closed at the top with net gains of 1/4¢ to 1/2¢. A drastic decline in the Argentine foreign exchange rate, due to the practical prohibition of gold exports from that country created considerable uncertainty amongst traders. Buenos Ayres wheat prices were quoted 5/8¢ higher at one time, but at the close showed a loss of 1/4¢ to 1/2¢, with December leading, while Rosario was 1/4¢ to 1/2¢ lower, December in the latter market being 1/4¢ over the same month in Buenos Ayres. The early advance was reported as due to the change in the exchange rate.

Fear for Russian Wheat.
Forecast for Russian wheat in the southwest, which would catch the winter wheat without snow protection, had some effect on sentiment, as the forecast was for generally fair over that section. There was no material pressure on the wheat market until the May advance to around \$1.33, where profit taking and selling against offers developed and checked the upturn.

There was little in the general run of the news that attracted attention, but in some quarters the belief prevailed that farm board activities would result in resistance to pressure around the loan level, and there was some broadening in outside interest on this view. Liverpool closed 1/4¢ to 1/2¢ higher, with some short covering in evidence, while Winnipeg was strong and 1/4¢ to 1/2¢ higher.

Action of the Argentine government in prohibiting exports of gold was accompanied by some operators as a confirmation of estimates that the wheat crop would be decidedly short of last year, inasmuch as wheat exports play a substantial role in the trade balance, a material shrinkage in the amount of money to be received from wheat was indicated, and prohibiting gold exports was regarded as necessary to offset this. Private cables from there suggested a yield of 160,000 bu. compared with 225,000,000 bu. last year. Broomhalls Australian agent doubts that that country will have \$6,000,000 bu. to spare this season owing to unfavorable threshing returns.

There was a lack of export demand for wheat at the seaboard, with sales of \$60,000 to \$80,000 estimated in (1) positions, in addition to which there has been a good business in flour at the Pacific coast, with China, with business during the past 6 weeks equal to \$40,000 bu. wheat.

Record Cash Oats Sale.
What is said to be the largest cash oats sale known was put through yesterday when the Updike Grain Company of Omaha sold 1,000,000 bu. to a Texas and Louisiana elevator concern. Removal of hedges against the trade had some effect on futures, which closed 1/4¢ to 1/2¢ higher. Argentine cables told of the inferior quality of this year's crop in that country. There was buying of December and selling of May at 1/4¢ difference by cash interest.

Corn prices averaged higher, the action of wheat having considerable influence. Closing figures were at net gains of 1/4¢ to 1/2¢, the latter on December basis. Country offerings to arrive were small and weather conditions over the West unfavorable for the movement. Shipping demand here was slow, but an Omaha house was reported to have sold 100,000 bu. white corn to a Texas and Louisiana elevator concern. Buenos Ayres closed 1/4¢ to 1/2¢ lower following general rains in the corn belt. December rose to a premium over the deferred futures early due to short covering, but on the advance cash interest sold December and in 1927.

CASH GRAIN NEWS

Export demand for wheat from abroad was rather slow, with sales of around 300,000 to 400,000 bushels estimated in all positions, in addition to which China is said to have made liberal purchases of flour at the Pacific coast. Including the clearances in November, the business is said to aggregate around 100,000 bbls. Local handlers sold 44,000 bushels corn and 41,000 bushels oats to the domestic trade. Deliveries on December contracts were 65,000 bushels wheat, 14,000 bushels oats, and 90,000 bushels rye.

Range of cash grain prices in leading markets follows:

Don't let a bad day ruin your life.

W. Morrisson

J. W. Morrisson
Peking Guest
of Mrs. Calhoun

— E. THALIA —

The James W. Morrissons, who, with his son, William, met forth in the city for the orient, are among the few exceptions among the returning Americans who are far off places to spend Christmas here.

The Morrissons now are in England. Mrs. William J. Calhoun, a native of this city, has she has been away of her erstwhile fellow to the east, and with her they are in the city for the Yuletide season. They are in the Yuletide season, during the first of the month, and the first of the month, for Mrs. Morrison's attendance at the Institute of Pacific Relations, which she was one of the African.

Their son and daughter-in-law, Robert Morrisson, who are coming to their residence here during the next week, have not heard yet just when the next move will be after Mrs. Calhoun's, but they expect that they will be in the city.

William J. Calhoun was a time United States minister to China.

Among the homecomers are Isabel Linn, who has been in bed for almost two years. She has sister, Mrs. Cyrus McCormick who sailed just a few weeks ago. Europe, are expected to arrive just this week.

Capt. Mrs. Oliver F. Allen was expected to land in New York City yesterday on their way for their first visit since marriage. Capt. Bryson has been in India, where Mrs. H. H. Bryson, Mr. and Mrs. H. H. Bryson visited last summer. Mr. Bryson spent some time ago, but Mrs. H. H. Bryson is returning with the H. H. Wilsons (Marjorie) east to meet the travelers. They are to give a dinner-dance at the Casino on Friday.

The Sunbeam league is to have a general meeting at the Stevens Hotel.

WINNIE WINKLE, THE BREADWINNER: Christmas Cheer

RECENT DEBUTANTE

MISS BETTY MCNAIR.
(Underwood & Underwood Photo.)

Miss Betty McNair was presented to society last Saturday afternoon at a tea given by her father, Frank McNair, at his apartment at 430 Lake Shore drive.

Mrs. Ann Webster. Mrs. Webster is a prominent and active worker in the affairs of the National League of Women Voters and has been Mrs. Blair's guest on numerous occasions, several of them when meetings of the league were current.

Mr. and Mrs. George E. Marcy of the Drake hotel left last Saturday for their annual winter season at Huntington hotel in Pasadena for the next few months.

Miss Marianne Louise Stevenson, not the debutante Marianne Stevenson, but the daughter of Mr. and Mrs. James R. D. Stevenson of 540 Hawthorne place, returns Friday from Mount Vernon seminary for the Christmas holiday.

Mrs. Howard Lyle Simmons of Oak Park is to give a tea this afternoon at the Nineteenth Century Woman's club for her daughter-in-law, Mrs. Howard Lyle Simmons Jr., formerly Miss Louise Simmons of Waukegan, Wis.

Society at the Opera

Mrs. Frederick H. Rawson gave a dinner before the opera and took as her guests Mrs. Albert Blake Dick, Mrs. William J. Chalmers, Mrs. D. Mark Cummings, Mrs. George D. McLaughlin, Mrs. Charles K. Foster.

Loop to Hear Yule Songs of Long Past Days

The prospect of joining what will probably be the largest throng of Christmas shoppers of the season, will be brightened for many last minute gift seekers, with the announcement that Christmas carolers will sing in the loop district on Saturday afternoon.

Little children from the Chicago Orphan asylum and Fellowship house will sing the songs that never grow old at 3 o'clock in the Venetian court, Pine Arts building, and will listen to the Indian Princess Tetanina in her native costume talk to them.

Another group will be heard in the Art Institute at 2:30, while two bands of carolers will sing in the loop at the Stevens hotel lounge and at Lyon & Healy's store at 3:30 o'clock. The children are members of free classes conducted by the Civic Music association of Chicago.

Yesterday wasn't Christmas day on the calendar but it was in spirit in the kindergarten and primary department of the Peabody-Frost School Teachers' college, 618 South Michigan avenue. Each student teacher brought a child as a guest and there was story telling, games and songs around a Christmas tree which held a gift for every little guest. Miss Martha Seeling, educational director, and Miss Laura Hassenstein, kindergarten director, had charge of the festivities.

A strange booster for a Christmas fund for orphaned children of the city will be seen on loop street corners today and tomorrow. Octagonal, the baby elephant which appears in the picture "Hunting Tigers in India" at the Studebaker theater, expects to earn single-handed money to give a number of orphaned a real Christmas.

On Friday Christmas baskets for the needy of the Audubon school district will be prepared by the Audubon Parent-Teacher association's officers. In the afternoon a Christmas program will be held in the school assembly hall.

The Steuben club's Christmas party will be held Friday night, with choral singing, folk songs, school day songs, dancing, and the distribution of toys to the children of members. Members will inspect the new club at Wells and Randolph streets for the first time.

About 1,500 school children of Austin have been invited to a Christmas party Saturday morning at the Symphony theater, Chicago and LaSalle avenues, given by the Chiro Booster club, of which L. A. Warner is president. Each child will receive a present. The same morning, on the south side, Representative William W. Powers (13th district) will be host to about 12,000 children of his neighborhood at the East Side theater, 106th street and Irving avenue.

The Christmas dinner for the more fortunate need not take all the cash balance left after Christmas presents are bought, according to the American Research foundation. Dinner, with all its trimmings, for a family of five this year can cost no more than \$4.95.

The box subscribed for by the Charles A. Chapin estate was occupied by Mr. and Mrs. Henry Chapin, Mr. and Mrs. Frederick H. Rawson, Miss Louise Lackner, and Henry K. Chapin Jr.

Tablets! Aviators use our malted-milk tablets as the best concentrated food procurable. Convenient and nourishing, they quickly soothe the throat and satisfy the appetite. A better confection! Take a bottle home today. You'll find them quite as delicious as our natural malted milk.

Listen to our extraordinary radio program coming to you over WMAQ on Friday evenings at seven. Send ten cents for generous sample, and clever mixing device, to Horlick's, Racine, Wisconsin.

HORLICK'S

R. L. Eskridge Brings Back Paintings of South Sea Islands

BY ELEANOR JEWETT

Robert Lee Eskridge is back in town from a long eight months in the South Sea islands and he has brought with him trophies in the shape of a number of gorgeous and spirited paintings which are placed on view today in the Chester H. Johnson galleries in the Fine Arts building. Last winter Mr. Eskridge started out with a brilliant exhibit of water colors, their themes, too, the result of a visit to Manga Hava, an island lying in the Gambler archipelago, close to Easter island and one thousand miles south of Tahiti.

In the present exhibit are drawings, water colors and oils. Whatever medium the artist employs certain features remain the same. In all are found a delicacy of touch, imagination, gaiety, spirit, excellent draughtsmanship and exquisite care. These pictures are not the result of impulsive effort. They were thoughtfully conceived and lovingly carried through to their anticipated completion. They are finished works. Even the slight water color where much of the atmosphere is left to suggestion, "Elkua," a poem in white and green, is complete. In further stroke would be superfluous.

The Frenchman, Surva, whose trick of breaking his canvas into delightful sections of color something like children's cut-outs, has been followed by Mr. Eskridge; but, amusingly enough, Eskridge paints in his figure with a sure stroke and breaks up his background to the furtherance of all sorts of engaging ideas. He portrays speed, force, weather, a number of phases and intangible qualities with this colorful and interrupted backdrop. You will find it in "Harpoon-Ing Fish," in "Sunlight-Mahana" and in "Pearl Diver." It is a fascinating trick.

Two beautiful portrait studies of natives, one a girl, "T. T.," and one a boy, "Mataga," are remarkable. The girl's portrait is particularly lovely. The background is a delicate neutral color with red flowers splashed almost by accident into its purity. It is a fragrant canvas, full of poetry and romance and youth and the languid feel of South Sea nights. Others of the paintings are South sea haunts. Some have idols stretching eerily, clinging to life; other have gay ghosts chattering like monkeys in the sun.

The most beautiful of the paintings is the marvellously colored "Lagoon, Manga Hava." It is as if an opal had broken and the shining threads of purple and blue and green had become transformed into cliff and sea and a swirl of foam. "Goat Hunt," "The Fool," "King's Tower," "Orange Harvest," "Harpoon-Ing Fish," "Lagoon," these must all find mention to make an account of the exhibit a true picture. Each is necessary to complete the effect of triumphant advance in this art which Mr. Eskridge had made. The exhibit will continue into January.

Mother's Drama Club.

The Mothers' Drama club of the Municipal pier will hold a meeting this afternoon at the Lake Shore club house.

Collision Occur
New York

(Picture on back page)
New York, Dec. 18.—(Special)
Furness-Hermuda steamship
was bound for
was halted at 4 o'clock this
in the dense fog at the
Ambrose channel. The
going over the rain-swept
vessel to a dory.

Suddenly out of the gray
fog a tall sharp prow ap-
peared. The Algonquin, equi-
valent in the sea's greatest me-
chanical engineering for Galveston.
Unable to avoid the ship,
Algonquin cut a deep hole
Fort Victoria amidships on
side. The water rushed in,
at once the Fort Victoria
lost power, as the engine
rooms were flooded.

An emergency dynamo was
commissioned on the Bern-
hard ship and calls for help went
out from the Clyde
coast guard vessels, police
and tugs started down the
pilot boat New Yorker moved
side the stricken Fort Vic-

323 Landed in Pilot
Accommodation ladders
erect and 121 passengers
left, and all but twelve re-
mained on the ship. A crew
of 145 went down to the
pilot ship. They remained
four tugs, led by the
wrecker Relief, came to the
7 o'clock and the passengers
were transhipped. The
on the Clyde liner remain-

her.
While the Algonquin,
damaged only at the bow,
Capt. A. B. Francis, master
Hermuda boat, refused to
Fort Victoria. He and the
his crew who remained be-
lieved to keep the Bern-
ard afloat. The Fort Victoria
went down, a total loss, in
at 7:30 p. m., the captain
abandon crew escaping to the
surface.

Left tonight John E. C.
Clyde-Mallory lines said
information was that the Al-
gonquin anchored off Ambrose
ship in a dense fog and
expected to dock until to-
morrow. "We have no details
as to the extent of
Algonquin's damage other than
is no danger and that the
see all safe," Mr. Craig

Get Thrill of How
The transfer of the pas-
sengers to the Fort Victoria in the
experience that few of the
saw. This was made clear at
1 o'clock, when 144 of
landed from the pilot boat
at the coast guard base at
Staten Island. Three tugs
other passengers at Man-
hattan. The Fort Victoria left
at 11 a. m. Because of the den-
sity which hung close to the
fog and grew ever heavier as
made its way down the bay,
ran at half speed, with the
sounding a warning at re-
vals.

The Algonquin got away
at noon. She was
make a stop at Miami on
to the Texas port. Capt.
Kende piloted the same
navigation tactics of Capt. Fre-
trip down the bay. When
whistle of the Fort Victoria
sounded as the steamship
the entrance to the chan-
nel the blasts were lost in
or mounds, were questions
tonight.

Passengers at Lunch
As the sharp bow of the
Clyde liner cut its way
side plates of the Bern-
many of the Fort Victoria
were at luncheon. An
sounded and they went to
Some confusion resulted in
the dynamo of the ship
by the engine room. West
engineers' quarters were
few lights were managed
emergency dynamo and the
on duty began phoning
calls for aid.

A quick inspection of the
showed that although the
at the bow she was not
water.

In a matter of fifteen
